Success today depends a lot on your academic achievements. And to excel in studies, you do not have to be just an intelligent student - but also one who knows how to

manage studies and time. This book, brings you an innovative system specifically designed for super achievement.

Discover the psychology of scoring high grades and the power of Topper 's Blueprint™ to become a super successful student, year after year. You are holding a life-changing book that is based on 13, 000 hours of research in areas of psychology, philosophy and science that enables high performance and success. This ground-breaking book is written exclusively for students, parents and teachers. It demystifies why some students are bound to be toppers and others are destined to have a life full of drudgery and struggle. It introduces you to a radical concept that has never been discovered or talked about in the field of education – The Topper 's Blueprint™. In this result-oriented book, you will get exposed to your Study Blueprint and discover ideas, insights and a course of action to harness the power of your mind, dramatically increase your grades and become an all-rounder. Become a TOPPER. Read it! This is NOT a book on memory or study skills, it is much deeper than that. In fact, you must read this book before you take any coaching classes/tuitions or read any other book on study skills/ memory development.

A BLUEPRINT for SUCCESS is the architectural rendition of what success should look like. It will give you the detail and various views of the concept. It is no secret that achieving goals is a personal and individual pursuit. Your goals are invariably different to those of your neighbor. One important secret in pursuing your goal is in your ability to identify it clearly and distinctly. Accomplishing any goal for success requires us to make changes to the identified product/service/present condition or situation, in order to produce what we are trying to achieve. While difficult to define success succinctly, we have been given many pointers along the way. Successful and well-known people have always given us food for thought. A few examples are: "Don't let what you cannot do interfere with what you can do." John R. Wooden "A journey of a thousand miles begins with a single step." Lao Tzu "What the mind can conceive, it can achieve." Napoleon Hill "If opportunity doesn't knock, build a door." Milton Berle The Celebrity Experts(R) in this book have dedicated themselves to their goals. Their blueprints include the good, the bad and the ugly. They are not afraid of success or failure. Their experiences will guide and mentor you as you pursue your own goals and begin designing your own SUCCESS BLUEPRINT.

India is evolving in every sphere, and its education system is no exception. The change, however, is largely towards the betterment of the society as a whole; but still constraints are many in achieving a stringent yet 'beneficial for all' education system in the country. This book gives a thorough account on the Indian Education system—from its inception to the present day, and underlines the hurdles faced and the improvements needed to achieve a flawless system of imparting value education the students. The book begins by explaining fundamental theories of education—its meaning, nature and so on, and then proceeds to discuss the emerging Indian society and the constraints faced by its education system, like corruption, poverty, social discrimination, ill practices (drugs, violence, etc.). It further discusses the philosophies preached by the Indian and Western philosophers and educationists, like Swami Vivekananda, Sri Aurobindo, Rabindra Nath Tagore, Mahatma Gandhi, Rousseau, Froebel, and Maria Montessori, and their contribution in shaping the Indian Education system in some way or the other. The book further explains the concepts integral to Education in Emerging India, which are Education for All (Sarva Shiksha

Abhiyan), Education for Women (girl child), Education for the Children with Special Needs, Education for National Integration, and Adult Education. It also discusses the revised education policies, with special emphasis on education commissions, and organizations involved in it. The book is designed for the undergraduate and postgraduate students of Education.

Can studying really be interesting and enjoyable? This book explores attitudes towards studying and offers tips and techniques to turn studying into an interesting, enjoyable activity instead of the dull drudgery that it is for most people. Why study subjects you don't like? How to exercise and diet right to keep your brain alert? How to use mind maps to study during an emergency? Art of Living teachers Khurshed Batliwala and Dinesh Ghodke distill years of learning and teaching young people into this fun, easy-to-read book.

This book shows you the way by offering a variety of time-tested and proven techniques based on the ancient wisdom of the East, combined with practical modern research findings of the West. This is an invaluable book for all those who wish to lead a happy, enriched and successful life.

It is observed that throughout the majority of the classics of self improvement literature, there are 10 core steps or fundamental rules to achieve success which run as a common thread. The purpose of this book is to share with the readers, these 10 proven rules/principles or keys compiled from the vast ocean of success literature. Some of these essential rules include-(setting a goal, positive mental attitude and self confidence, purposeful and burning desire, planning and preparation, resources, inputs, discipline, action, persistence or perseverance, prayer and values.) Here success is first defined; then the basic rules involved in achieving success are enumerated and explained with relevant anecdotes and stories. To these 10 fundamental rules, a set of success formulae as well as virtue capsules have also been added in the present book.

In the world of smartphones, instant internet access and on-demand documentaries, studying should be easier than ever. Yet all this background noise can make us unfocused and inefficient learners.
