"Cosentino demystifies the consulting case interview. He takes you inside a typical interview by exploring the various types of case questions and he shares with you a system that will help you answer today's most sophisticated case questions"--Page [4] of cover.

This new edition of Writing Short Stories has been updated throughout to include new and revised exercises, up-to-date coverage of emerging technologies and a new glossary of key terms and techniques. Ailsa Cox, a published short-story writer, guides the reader through the key aspects of the craft, provides a variety of case studies and examples of how others have approached the genre and sets a series of engaging exercises to help hone your skills. This inspiring book is the ideal guide for those new to the genre or for anyone wanting to improve their technique.

Embrace the Case Interview walks you through each step on the path to your dream consulting job as described by a former management consultant who conducted over 100 interviews for a top-tier firm. First, we cover how to get the interview including how to be memorable when speaking with firms prior to the interview and how to write a killer resume and cover letter. Second, we cover the behavioral part of the interview. Often overlooked, the behavioral part of the interview covers your personal experiences and is often just as valuable as the case interview. We discuss the traits interviewers are looking for and how to answer their questions in a structured way. Third, we take an in-depth look at the case interview itself. Unlike books that focus on segmenting cases and applying frameworks, you will learn a single, flexible structure that you will apply to any case with deadly effectiveness. In addition to structuring the case, you will learn approaches for the cases' other parts including qualitative questions, quantitative problems, exhibit analysis, and synthesis. Embrace the Case Interview places a strong emphasis on the quality of your learning rather than just doing hundreds of cases. As such, each example case contains an in-depth discussion of the text book answer to help you improve. For more information, please visit [embrace-thecaseinterview.com](#). Enjoy the book and best of luck in your upcoming interviews!

The use of complex graphs in case interviews has exploded. You have a very short time to look at the graph, analyze it, extract what s important and apply it to your answer. This book was designed to help you understand the role of graphs in consulting (both during an interview and on the job). The authors introduce the Ivy Graph Framework, which will allow you to analyze 11 of the most popular graphs quickly, completely, and with great confidence. In addition the book provides ten sophisticated cases with numerous graphs per case and allows you to see how these cases unfold. There is nothing else out there like it!

Featuring the Ivy Case System - including a section on government and nonprofit cases.

Interview Math provides over 50 practice problems and answers to help job seekers master quantitative interview questions including: Market Sizing Revenue Estimates Profitability Breakeven Pricing Customer Lifetime Value If you're interviewing at one of the highly sought after positions below, you'll need to master these interview math questions: Management Consulting: McKinsey, Bain, Boston Consulting Group, Deloitte General Management: Capital One, Taser Marketing: General Mills, Google, Hershey Software Engineering: Goldman Sachs, Microsoft Finance: American Airlines, Best Buy, JetBlue You'll learn interview math concept and principles - and then master those concepts with over 50 practice questions filled with detailed answers. After going through the book, candidates will feel knowledgeable, confident, relaxed and ready to tackle interview math questions.

The only way to master the case interview is with practice. The third book in WetFeet'ss Ace Your Case series provides 15 new sample questions. Each book in the series offers an introduction to the case interview; an explanation of the most common question types, with tips for each; and detailed examples of good and bad answers. BUS037020

Poems suggested by episodes from the life and writings of John James Audubon.
