The story came back to me as I started reading 50 Genetics Ideas You Really Need to Know. Genetics is a subject characterised by ignorance, myth and misunderstanding. It has been used as the 'scientific' justification for every kind of abominable dehumanising piece of social engineering and experiment.

This finding fits very well with the idea that baldness can come from someone's maternal grandfather. Because each son has a 50-50 shot of getting an X from their maternal grandpa through their mom. The X and the Y chromosome determine whether someone will be a boy or a girl. If

Online Library 50 Genetics Ideas You Really Need To

someone has two X chromosomes, then she is almost always female.

The Genetics of Balding | Understanding Genetics

Genetics, study of heredity in general and of genes in particular. Genetics forms one

Online Library 50 Genetics Ideas You Really Need To

of the central pillars of biology and overlaps with many other areas, such as agriculture, medicine, and biotechnology. Learn more about the history, biology, areas of study, and methods of genetics.
