After receiving a classical Chinese primary and a bilingual secondary education in his father's school Rayson Huang entered the University of Hong Kong in 1938. The forty-eight years thereafter, except for two short intervals, were spent in studying, teaching, research, and/or administration in universities in Hong Kong, China, Britain, the United States, Singapore and Malaysia. The first of the two intervals, of about a year, came as a result of the fall of Hong Kong to the Japanese in late 1941 when he moved, as a refugee, into Free China and after a spell of school teaching started his career in a university in Kweilin. The second interval, lasting some six months, was spent making his way by land, air, and sea via Chungking the war-time capital in China's hinterland, and India, to England to take up a scholarship awarded him by the Rhodes Trust at Oxford. The last seventeen years of his working life were taken up serving as vice-chancellor of Nanyang University, the controversial Chinese university in Singapore, and of Hong Kong University. This autobiography records Rayson Huang's diverse university experience of a half century. It also gives an account of the siege of Hong Kong and life in war-torn China and of two bodies on which he later served: the Legislative Council in Hong Kong and Beijing's Drafting Committee which formulated a Basic Law for the territory after its return to China in 1997.

This comprehensive manual covers the complete Toyota Prado range of vehicles. Detailed engine chapters covering all petrol/gasoline and diesel engines. Learn how to rebuild and modify the GM 4L80E transmission! As the successor to the venerable and popular Turbo Hydra-matic 400 (TH400), the 4L80E was the next flag bearer in GM's line of automatic transmissions. While serving as the smaller, lighter cousin to the 4L85E, the abundance of 4L80E transmissions manufactured between 1991 and 2013 ensures that these highly capable 4-speed overdrive units will be in service for years to come. Automatic transmissions are often seen as mysterious and overly complicated, but much of the guesswork has been simplified to its basic elements in this easy-to-follow guide. This book covers the process of identifying the best versions, tearing down the 4L80E, rebuilding, reassembly, and troubleshooting. Upgrades that are available for the 4L80E, which is a popular topic among performance fans and transmission swappers, are also included. This detailed, step-by-step instructional manual is authored by racer and builder Eric McClellan. Meticulous step-by-step photos of the rebuild process are featured along with torque specs and unique identification of all major and most minor components.

A behind-the-scenes look at Lexus's surprising twenty-year success story—in a revised new edition In the 1980s, German brands BMW and Mercedes-Benz dominated the luxury car market and had little reason to fear competition from Japan. But in 1989, Toyota entered the market with the Lexus LS 400, a car that could compete with the Germans in every category but price—it was US\$30,000 cheaper. Within two years, Lexus had overtaken Mercedes-Benz in the United States and made a stunning success of Toyota's brave foray into the global luxury market. Lexus: The Relentless Pursuit reveals why Toyota decided to take on the German automakers and how the new brand won praise and success for its unparalleled quality, unforgettable advertising, and unprecedented customer service. From the first boardroom planning session to Lexus's entry into the mega-luxury supercar market, this is the complete and compelling story of one of the world's most admired brands. Includes a new Foreword by legendary designer Erwin Lui, an Afterword with updates since the first edition, and a new Coda by leading Japanese automotive journalist Hisao Inoue Covers the racetrack triumph—and tragedy—behind the new US\$375,000 Lexus LFA supercar Offers important business lessons for brand managers and executives For car enthusiasts, business leaders, and anyone interested in branding and marketing, Lexus: The
