~~History of Mathematics: China~~

The first Chinese mathematics text is of uncertain age, some dating it as early as 1200 b.c. and others over a thousand years later, but there is little doubt that relatively advanced mathematical concepts were discovered and practiced in China well before the birth of Christ.

~~Ancient Chinese Mathematics | Encyclopedia.com~~

In ancient China, the science of mathematics was subsumed under the larger practice of suan chu, or the "art of calculation." The Chinese are believed to be one of the first civilizations to develop and use the decimal numeral system. Their early mathematical studies have influenced science among neighboring Asian countries and beyond.

century AD). First a concise overview of Chinese history and in philosophy is given. The ethical oriented Confucianism was the dominant philosophy and consequently little attention was given to the natural world, hindering the development of natural sciences and mathematics.

~~The Nine Chapters on the History of Chinese Mathematics~~

The high-water mark of Chinese mathematics occurred in the 13th century during the latter half of the Song dynasty (960 – 1279), with the development of Chinese algebra. The most important text from that period is the Precious Mirror of the Four Elements by Zhu Shijie (1249 – 1314), dealing with the solution of simultaneous higher order algebraic equations using a method similar to Horner's method . [111]

~~History of mathematics — Wikipedia~~

After this period, mathematics in the East was under the deep influence of mathematics imported from Europe, which Chinese mathematicians tried to synthesize with traditional Chinese mathematics. This paved the way to the adoption, at the end of the 19th century, of mathematics as it was practiced in the West.

~~East Asian mathematics — Britannica~~

Early Chinese Mathematics 1600 BC Simple mathematics on Oracle bone script date back to the Shang Dynasty (1600 – 1050 BC). One of the oldest surviving mathematical works is the Yi Jing, which greatly influenced written literature during the Zhou Dynasty (1050 – 256 BC).
