A320 Family - Passenger aircraft - Airbus

The Airbus A320 family are narrow-body airliners designed and produced by Airbus. The A320 was launched in March 1984, first flew on 22 February 1987, and was introduced in April 1988 by Air France. The first member of the family was followed by the longer A321 (first delivered in January 1994), the shorter A319 (April 1996), and the even shorter A318 (July 2003).

Airbus A320 family - Wikipedia

Middle East Airlines (MEA) has taken delivery of Airbus A320 Family aircraft with manufacturer serial number 10,000. MSN10,000 is the third A321neo to join the all Airbus MEA fleet, taking the fleet size to 18 aircraft. MEA received its first A321neo aircraft earlier in 2020 and will be taking another six A321neos over the coming months.

Airbus delivers A320 Family MSN10,000 to Middle East ...

Airbus built both the A330 and A340 at the same time. Photo: Getty Images. Airbus always planned to build a range of aircraft from small narrowbodies up to four-engined behemoths, to rival US builders like Boeing. But the journey from an idea to creation is different for each aircraft. For the A340, it begins where we left off with the Airbus A320.

Airbus A321 - Wikipedia

Apart from the flight deck, the A330 also has the fly-by-wire system common to the A320 family, the A340, the A350, and the A380. It also features three primary and two secondary flight control systems , as well as a flight envelope limit protection system which prevents maneuvers from exceeding the aircraft's aerodynamic and structural limits.

Airbus A330 - Wikipedia

Airbus A340 Family. The Airbus A340 aircraft project was launched in parallel with the Airbus A330 in June 1987. There two distinct families within the four-engined A340 product range - the original 260-295-seat A340-200/300 and 310-380-seat A340-500/600. The Airbus A340-300 was the first plane to enter service in March 1993 with Air France.

Planes of the Airbus A340 family - Airlines Inform

The Airbus A340 is a twin-aisle passenger airliner, the first long-range Airbus, powered by four turbofan jet engines. It was developed upon earlier Airbus aircraft and their features like the A320 glass cockpit; it shares many components with the A330, notably identical fly-by-wire control systems and similar wings.
