"What makes a leader? Can you really learn to lead? You might think that leaders need to be born with the right skills or personality attributes. The book is full of stories taken from the author's own leadership experience as well as from his work helping various types of leaders and organizations. What's revealed is that leadership is not a role reserved for an elite few blessed with the right skills and key positions-it's about a focus on taking ownership and adding value to others. What's more, leadership is a lifelong journey of learning for which you must
