An Introduction to Hybrid Rice Breeding: Amazon.co.uk ...

Hybrid rice is grown from hybrid rice seed which is produced by growing an inbred rice variety having sterile pollen which is cross pollinated with normal pollen from adjacent rice plants of a different inbred variety. Hybrid rice therefore has two genetically different parents. As with other types of hybrids, hybrid rice typically displays heterosis such that when it is grown under the same conditions as comparable high-yielding inbred rice varieties it can produce up to 30% more rice. High-yie
