610, latest edition. It encompasses a family of 11 distinct designs, providing the most comprehensive range of pump configurations and hydraulic coverage available to the industry.

ISO 13709/API 610 (OH3) -
Flowserve

In API 610 11th edition the overall tolerance for the differential head at the rated flow has been standardised across the full range (and also standardised to the same positive and negative tolerances). This compares to a graduated range of tolerances in 10th edition. For differential heads of less than 150m the overall tolerance in 11th
