In July 2010, the National Research Council (NRC) appointed the Committee to Review the 21st Century Truck Partnership, Phase 2, to conduct an independent review of the 21st Century Truck Partnership (21CTP). The 21CTP is a cooperative research and development (R&D) partnership including four federal agencies—the U.S. Department of Energy (DOE), U.S. Department of Transportation (DOT), U.S. Department of Defense (DOD), and the U.S. Environmental Protection Agency (EPA)—and 15 industrial partners. The purpose of this Partnership is to reduce fuel consumption and emissions, increase heavy-duty vehicle safety, and support research, development, and demonstration to initiate commercially viable products and systems. This is the NRC's second report on the topic and it includes the committee's review of the Partnership as a whole, its major areas of focus, 21CTP's management and priority setting, efficient operations, and the new SuperTruck program.

The German education and training system has been the subject of considerable attention from other nations, and has often been used as a model. David

Phillips' book brings together articles from some of the best known names in the field including Mitter, Glowka, Hearnden, Fuhr, Robinsohn and Prais and wagner. The book is organised into four sections. Section one examines the historical inheritance of the present education system. Section two covers standards and assessments and section three discusses vocational education and training, and area of the German education system which has received much admiration. Finally, and crucially, section four addresses questions about the future of the current system in a unified Germany.
