methodological and applied results related to the application of artificial intelligence (AI) in medicine.

AIME 2020 - Home
AI in medicine refers to the use of artificial intelligence technology / automated processes in the diagnosis and

Science

Online Library

Artificial

treatment of patients
who require care.

Whilst diagnosis and
treatment may seem

like simple steps,

there are many other
background

processes that must

take place in order for

a patient to be

properly taken care

of, for example:

Artificial Intelligence

Science
