Unisa Course
Modules

Individuals can now upload, retrieve, store, and collect massive amounts of

information to help drive decisions and optimize processes.

Due to this, a new age of predictive

computing is taking place, and data can

now be harnessed to predict unknown

occurrences or

Acces PDF B

Tech Mining

probabilities based on data collected in real time. Predictive

Intelligence Using Big Data and the Internet of Things highlights state-of-the-art

research on predictive intelligence using big data, the IoT, and related areas to ensure quality assurance and compatible IoT

systems. Featuring

coverage on

predictive application

scenarios to discuss

these breakthroughs

in real-world settings

and various methods,

frameworks,

algorithms, and

security concerns for

predictive

intelligence, this book

is ideally designed for

academicians,

Acces PDF B

Tech Mining

researchers, advanced-level students, and technology developers.

The conferences on ' Applications for Computers and Operations Research in the Minerals Industry ' (APCOM) initially focused on the optimization of geostatistics and

resource estimation.

Several standard methods used in these fields were

presented in the early days of APCOM.

While geostatistics remains an important part, information

technology has emerged, and

nowadays APCOM not only focuses on geostatistics and

Acces PDF B

Tech Mining

resource estimation,
but has broadened its
horizon to

Information and

Communication

Technology (ICT) in

the mineral industry.

Mining Goes Digital is

a collection of 90
