The Boeing 737 Classic are narrow-body airliners produced by Boeing Commercial Airplanes, the second generation of the original Boeing 737-100/-200. Development began in 1979 and the first variant, the 737-300, first flew in February 1984 and entered service in December of that year. The stretched 737-400 first flew in February 1988 and entered service later that year The shortest variant, the ...

Series 3/5/6/700 pack output temperatures are independently controlled. Series 4/8/900 packs work to the coldest of the three zones, the two warmer zones are then heated by trim air after the mix manifold. In both series, flight-deck air is taken from before the mix manifold, however series 4/8/900 flight-deck air may also contain trim air.

to add winglets to any  
737-300. Known as Special  
Performance (SP), the  
winglets give a 4.5% drag  
reduction over the standard  
model. The first 737-300SP  
was delivered 9 Jul 2003 and  
the retrofit kits are  
expected to be available for  
the -400 by the end of 2003.
