Boeing: 777

The Boeing 777 is a wide-body airliner developed and manufactured by Boeing Commercial Airplanes. It is the world's largest twinjet and commonly referred to as the Triple Seven. The 777 was designed to bridge the gap between Boeing's 767 and 747, and to replace older DC-10s or L-1011s. Developed in consultation with eight major airlines, with a first meeting in January 1990, the program was ...

It is hard to say which aircraft is better. On the one hand, Boeing explicitly designed the Boeing 777-200 for airlines. Yet a few years later, Boeing would make the 777-300 stretch as airlines demanded an ability to put more passengers onboard. Here are the two models sales numbers: Boeing 777-200 had 88 sales. Boeing 777-300 had 60 sales.
