Carteggio is a vertical secr é taire, a sort of double of the human figure. It invites a “ man to man ” comparison but will docilely reveal its secrets. Its internal,  
catalogue- or list-like layout implies a passion for classification. The chest of deep and shallow drawers, the desk compartment protected by a double door and the  
pull-out...

Secondo il vocabolario Treccani, il carteggio è uno scambio epistolare tra due o più persone. In seconda battuta è l'insieme delle operazioni eseguite sulle car...

Si tratta del carteggio segreto di due grandi protagonisti: Pio IX e Vittorio Emanuele II, i quali pur essendo legati da una vera reciproca simpatia e avendo gran desiderio d'intendersi, dagli avvenimenti storici del tempo furono condannati a figurare, l'uno di fronte all'altro, come rivali, nella più grandiosa e drammatica contesa del secolo. Questo carteggio, ben diverso da quello ufficiale, e pieno di patos e rivela tanti aspetti intimi degli autori e tanti particolari sconosciuti, che riuscirà per molti una vera rivelazione

Pirri descrive i grandi avvenimenti che condussero all'Unità Italiana, sotto il profilo che a lui, figlio d'Italia e Sacerdote della Chiesa Cattolica, apparve e doveva apparire il più importante: l'oppressione del più che millenario potere temporale dei Papi e l'evoluzione dell'Italia dalla condizione di un gruppo di Stati, retti secondo i principi della Chiesa Cattolica, in uno Stato Unitario, basato su principi liberali. La storia della genesi dell'Italia Moderna, già descritta in molte opere, abbisognava certamente da questo lato di rettifiche e di aggiunte. Queste si potevano però trovare solamente nel materiale in possesso del Vaticano. P. Pirri ebbe la fortuna di averlo a disposizione e lo profuse largamente in questa sua opera.

The untold story of Michelangelo's final decades—and his transformation into the master architect of St. Peter's Basilica As he entered his seventies, Michelangelo despaired that his productive years were over. Anguished by the death of friends and discouraged by the loss of commissions to younger artists, this supreme Renaissance painter and sculptor began carving his own tomb. It was at this unlikely moment that Michelangelo was given charge of the most ambitious and daunting project of his long creative life—the design and construction of St. Peter's Basilica. In this richly illustrated book, William Wallace tells for the first time the full story of Michelangelo's final two decades—and of how the artist transformed himself into one of the greatest architects of the Renaissance.

In this vividly written biography, William E. Wallace offers a new view of the artist. Not only a supremely gifted sculptor, painter, architect and poet, Michelangelo was also an aristocrat who firmly believed in the ancient, noble origins of his family. The belief in his patrician status fueled his lifelong ambition to improve his family's financial situation and to raise the social standing of artists. Michelangelo's ambitions are evident in his writing, dress and comportment, as well as in his ability to befriend, influence and occasionally say 'no' to popes, kings and princes. Written from the words of Michelangelo and his contemporaries, this biography not only tells his own stories, but also brings to life the culture and society of Renaissance Florence and Rome. Not since Irving Stone's novel *The Agony and the Ecstasy* has there been such a compelling and human portrayal of this remarkable yet credible human individual.

The pontificate of Clement VII (Giulio de' Medici) is usually regarded as amongst the most disastrous in history, and the pontiff characterized as timid, vacillating, and avaricious. It was during his years as pope (1523-34) that England broke away from the Catholic Church, and relations with the Holy Roman Emperor deteriorated to such a degree that in 1527 an Imperial army sacked Rome and imprisoned the pontiff. Given these spectacular political and military failures, it is perhaps unsurprising that Clement has often elicited the scorn of historians, rather than balanced and dispassionate analysis. This interdisciplinary volume, the first on the subject, constitutes a major step forward in our understanding of Clement VII's pontificate. Looking beyond Clement's well-known failures, and anachronistic comparisons with more 'successful' popes, it provides a fascinating insight into one of the most pivotal periods of papal and European history.

Drawing on long-neglected sources, as rich as they are abundant, the contributors address a wide variety of important aspects of Clement's pontificate, re-assessing his character, familial and personal relations, political strategies, and cultural patronage, as well as exploring broader issues including the impact of the Sack of Rome, and religious renewal and reform in the pre-Tridentine period. Taken together, the essays collected here provide the most expansive and nuanced portrayal yet offered of Clement as pope, patron, and politician. In reconsidering the politics and emphasizing the cultural vitality of the period, the collection provides fresh and much-needed revision to our understanding of Clement VII's pontificate and its critical impact on the history of the papacy and Renaissance Europe.
