He's logged everything from giant redwoods to desert mesquite and fulfilled his youthful ambition to fell timber in every major forest of North America. Drawing on this experience, he has invented several chainsaw mills, and perfected the easy, efficient method of chainsaw lumbermaking that he describes in this book. If you've ever had trouble finding the lumber you need, or wanted to build something with your own trees, "Chainsaw Lumbermaking" is the book you've been waiting for. The sound of chainsaws revving on "haunted" Halloween trails has evoked untold screams since Tobe Hooper's 1974 *The Texas Chainsaw Massacre* hit the cinemas. Since that first take-no-prisoners horror movie, Hooper's reputation as a master of horror has been secured by his adaptations of Stephen King (*Salem's Lot*, 1978, and *The Mangler*, 1995), his blockbuster breakthrough *Poltergeist* (1982) and a variety of cult hits, from the underrated *Lifeforce* (1985) to the remake of *Invaders from Mars* (1986). This reference work is divided into five parts. Part I provides a history and overview of Tobe Hooper's career. Part II offers entries (with synopses, complete credits, critical reception and commentaries) on every feature film by year of release. Part III provides chronological information on Hooper's television movies and miniseries. Part IV offers entries on his episodes from horror television series. Part V is a critical essay and conclusion which places Hooper

in horror film history and compares his work to all-time greats such as Romero, Craven and Carpenter.
