Contextual Teaching and Learning is an examination of a holistic approach to education. The book provides its readers with a comprehensive definition of Contextual Teaching and Learning (CTL), discussing its origins and philosophy, its basis in psychology, neuroscience, modern physics and biology. While attitudes toward education are often shaped by popular views in science, author Elaine B Johnson outlines the importance of integrating modern scientific discoveries into current education practices. Contextual Teaching and Learning: What It Is and Why It's Here to Stay stresses interdependence, differentiation, and self-organization as the principals that form CTL, as opposed to the dualism between thought and action that plagues traditional views on education. Elaine B Johnson illustrates the relationship between brain functions, memory retention, and teaching methods, and the significance of incorporating real life examples in lesson plans.

Here, Elaine Johnson examines of the state of education in the twenty-first century using science, rather than business as a more reliable and positive guide for education. The application of scientific principles of interrelatedness, self-organization, and differentiation to leadership and teaching, transforms schools into places that improve school performance. Chapters describe practical approaches to teaching math, science and foreign languages. This book analyzes the influence on education of the business model calling for growth, competition, measurable target, and accountability. It also discusses the effects on young people of immense high schools, charter schools, and statewide standardized achievement tests.

Online education offers incredible potential to reach students and their context for Christ, but doing so requires intentional implementation of a philosophy and practice of online education. As online professors and administrators seek to create a Christian community on mission, students can be transformed, and the gospel will be spread throughout the world. Excellence in Online Education provides an overview of the debates surrounding online Christian education, a framework for building community online, and practical advice about course design, delivery and program management.

Buku ini sangat menarik dan cocok bagi para pendidik yang ingin mempelajari dan menerapkan model pembelajaran CTL di kelasnya. Penjelasan tentang konsep atau model pembelajaran CTL disajikan secara ringkas tapi mencakup semuanya mulai dari pengertian dan konsep, komponen-komponen, karakteristik pembelajaran hingga perbandingan pendekatan CTL dengan model konvensional. Bahkan di bagian akhir buku ini juga diberikan contoh konkrit bagaimana menerapkan model pembelajaran CTL pada mata pelajaran Fisika di sekolah menengah tingkat atas. Hal ini membuat buku ini semakin membantu para guru (lebih khusus lagi guru Fisika di SMA) yang ingin mempelajari dan menerapkan model pembelajaran CTL.

Mengikat Makna Update diinspirasi oleh teknologi Web 2.0. Buku ini akan memudahkan masyarakat memasuki & menikmati dunia baca tulis yang memberdayakan.

We are delighted to introduce the proceedings of the first edition of the 2019 International Conference on Advances in Education, Humanities, and Language (ICEL). The aim of ICEL (International Conference on Advances in Humanities, Education and Language) is to provide a platform for researchers, professionals, academicians as well as industrial professionals from all over the world to present their research results and development activities in Education, humanities, and Language. The theme of ICEL 2019 was “Mainstreaming the Influences on Higher Order of Thinking Skills in Humanities, Education, and Language in Industrial Revolution 4.0”. The technical program of ICEL 2019 consisted of 77 full papers, including invited papers in oral presentation sessions at the main conference tracks. Aside from the high quality technical paper presentations, the technical program also featured six keynote speeches, Hamamah, Ph.D (Univeritas Brawijaya, Indonesia), Prof. Dr. Nuraihan binti Mat Daud (UIIM, Malaysia), Dr. Edith Dunn (Conservator/Cultural Specialist, USA), Prof. Yoshihiko -Sugimura (university of Mizaki, Japan), Prof. Park Yoonho (Sunchon National University, Korea) and Prof. Su Keh Bow (Soochow University, Taiwan). We strongly believe that ICEL conference provides a good forum for all researchers, developers and practitioners to discuss various advances that are relevant to education, humanities, and language. We also expect that the future ICEL conference will be as successful and stimulating, as indicated by the contributions presented in this volume

This book presents papers from the International Conference on Integrating Engineering Education and Humanities for Global Intercultural Perspectives (IEEHGIP 2020), held on 25–27 March 2020. The conference brought together researchers and practitioners from various disciplines within engineering and humanities to offer a range of perspectives. Focusing on, but not limited to, Content and Language Integrated Learning (CLIL) in Russian education the book will appeal to a wide academic audience seeking ways to initiate positive changes in education.

As an annual event, 1st Bukittinggi International Conference on Education (BICED) 2019 continued the agenda to bring together researcher, academics, experts and professionals in examining selected theme by applying multidisciplinary approaches. In 2019, IAIN Bukittinggi successfully held this event for the first time in 17-18 October at Institut Agama Islam Negeri (IAIN) Bukittinggi, West Sumatera, Indonesia. There were 64 papers presented during 2 days at the conference from any kind of stakeholders related with Education, Information Technology, and Mathematics. Each contributed paper was refereed before being accepted for publication. The double-blind peer reviewed was used in the paper selection. From all papers submitted, there were 38 papers were accepted successfully for publication based on their area of interest, relevance, research by applying multidisciplinary.

This book examines the spaces where translation and globalization intersect, whether they be classrooms, communities, or cultural texts. It foregrounds the connections between cultural analysis, literary critique, pedagogy and practice, uniting the disparate fields that operate within translation studies. In doing so, it offers fresh perspectives that will encourage the reader to reappraise translation studies as a field, reaffirming the directions that the subject has taken over the last twenty years. Offering a comprehensive analysis of the links between translation and globalization, this ambitious edited collection will appeal to students and scholars who work in any area of translation studies.
