This book covers the narratives of three authors who have different educational backgrounds, academic experiences, and fields of study. It interrogates and discusses the topic of educational assessment in different education systems, which represent eastern and western cultures and political contexts. The book provides recommendations for developing teachers' assessment literacy in teacher education and professional development programs. It also serves as a springboard for further inquiry into the subject.

Written by experienced teachers and experts, Mechanical Engineering for CSEC takes a skills-led approach. It concentrates on the development of skills, critical thinking and teamwork providing a firm foundation for the SBA, further study and beyond.
