*International Conference on Database and
Expert Systems ...*

Expert Systems With Applications is a
refereed international journal whose focus is
on exchanging information relating to expert
and intelligent systems applied in industry,
government, and universities worldwide. The
thrust of the journal is to publish papers
dealing with the design, development,
testing, implementation, and/or management of
expert and intelligent systems, and also to
provide practical guidelines in the
development and management of these systems.

*Expert Systems with Applications - Journal -
Elsevier*

In artificial intelligence, an expert system
is a computer system that emulates the
decision-making ability of a human expert.
Expert systems are designed to solve complex
problems by reasoning through bodies of
knowledge, represented mainly as if-then
rules rather than through conventional

DEXA: Database and Expert Systems Applications 2021 2020 ...

Since 1990, DEXA has been an annual international conference which showcases state-of-the-art research activities in database, information, and knowledge systems. DEXA provides a forum to present research results and to examine advanced applications in the field.

DEXA 2020 | DEXA Conference

An expert system is an advanced computer application that is implemented for the purpose of providing solutions to complex problems, or to clarify uncertainties through the use of non-algorithmic programs where normally human expertise will be needed.
