Travel around the world with Tony and Chelsea as they teach you hands-on. Appendix A lists the videos so you can use the book like an inexpensive video course.Classroom-style teacher and peer help. After buying the book, you get access to the private forums on this site, as well as the private Stunning Digital Photography Readers group on Facebook where you can ask the questions and post pictures for feedback from Tony, Chelsea, and other readers. It's like being able to raise your hand in class and ask a question! Instructions are in the introduction.Lifetime updates. This book is regularly updated with new content (including additional videos) that existing owners receive for free. Updates are added based on reader feedback and questions, as well as changing photography trends and new camera equipment. This is the last photography book you'll ever need.Hands-on practices. Complete the practices at the end of every chapter to get the real world experience you need.500+ high resolution, original pictures. Detailed example pictures taken by the author in fifteen countries demonstrate both good and bad techniques. Many pictures include links to the full-size image so you can zoom in to see every pixel. Most photography books use stock photography, which means the author didn't even take them. If an author can't take his own pictures, how can he teach you? In this book, Tony Northrup (award-winning author of more than 30 how-to books and a professional portrait, wildlife, and landscape photographer) teaches the art and science of creating stunning pictures. First, beginner photographers will master: CompositionExposuresShutter speedApertureDepth-of-field (blurring the background)ISONatural lightFlashTroubleshooting blurry, dark, and bad picturesPet photographyWildlife photography (mammals, birds, insects, fish, and more)Sunrises and sunsetsLandscapesCityscapesFlowersForests, waterfalls, and riversNight photographyFireworksRaw filesHDRMacro/close-up photography Advanced photographers can skip forward to learn the pro's secrets for: Posing men and women. Including corrective posing (checklists provided)Portraits (candid, casual, formal, and underwater)Remotely triggering flashesUsing bounce flash and flash modifiersUsing studio lighting on a budgetBuilding a temporary or permanent studio at homeShooting your first weddingHigh speed photographyLocation scouting/finding the best spots and timesPlanning shoots around the sun and moonStar trails (via long exposure and image stacking)Light paintingEliminating noiseFocus stacking for infinite depth-of-fieldUnderwater photographyGetting close to wildlifeUsing electronic shutter triggersPhotographing moving carsPhotographing architecture and real estate

Whether you're a serious photographer or a hobbyist, the advice and instruction found in this comprehensive, best-selling guide to digital photography will help you advance your skills to produce consistent professional results. Real World Digital Photography addresses the wide range of topics surrounding digital photography, including up-to-date descriptions of the latest camera technologies, expert advice for taking better photographs, and tips and techniques for optimizing images to look their best in print and on the Web.
