Table of Contents

Weber has made dozens of different models of carburetors throughout the years. Unfortunately -- unlike some other brands -- many Weber carburetors are made up almost entirely of unique parts that are not used by any other model. Very few parts interchange from one model to another, and exactly zero parts were used on every Weber carburetor model.

How a Weber 38 DGES Works - YouTube

Bob Tomlinson's Original Weber Tech Manual recommends starting about two and a half turns out and adjusting the mixture screw in. Haynes Weber Carburetor Manualrecommends pre setting the mixture screws two turns out. I doubt it makes much difference which way you go, as long as you end up in the right spot).

Weber Carburetors Tuned. Finally.

Weber carburetors are marked with a model code on the mounting flange, the body, or on the cover of the float chamber. This begins with a number which originally indicated the diameter (in millimetres) of the throttle bore, but later lost this significance.
