This book of case studies and problems brings real ethical dilemmas in legal practice to life by raising ethical issues and dilemmas in the context of actual fact patterns. These case studies are created from actual ethical problems that have arisen in malpractice cases, state bar grievances, motions to disqualify counsel, or other claims against lawyers. The materials have been developed and tested in the classroom for over a decade. The text uses twelve short case studies to present material in the topics of attorney client relationships, confidentiality, conflicts of interests, candor to the court, and attorney-client fee agreements. Each case study contains a short statement of the facts and is followed by different types of source materials, such as motions, depositions, affidavits, emails, and engagement letters. The case studies also include a selection of relevant legal authorities such as court opinions, ethics rules and opinions, rules of evidence, and rules of pro

The premier choice for Courts courses for decades, this popular text offers a comprehensive explanation of the courts and the criminal justice system, presented in a streamlined, straightforward manner that appeals to instructors and students alike. Neubauer and Fradella's crisp and clear writing, characterized by the organization of material into brief sections within chapters, ensures that readers gain a firm handle on the material. At the same time, the text's innovative courtroom workhouse model -- which focuses on the interrelationships among the judge, prosecutor, and defense attorney -- brings the courtroom to life. AMERICA'S COURTS AND THE CRIMINAL JUSTICE SYSTEM has long been known for the way it gives students an accurate glimpse of what it is like to work within the American criminal justice system, and the thirteenth edition is no exception. The book is analytical, concise, and thorough. Empirical studies show that many lawyers are unaware of even basic information about legal ethics, the law governing lawyers. Older lawyers, who draw a disproportionate number of malpractice suits, often have neither formally studied ethics nor kept up with developments in the law. Many malpractice suits arise out of ethics violations, such as disqualification of lawyers for conflicts of interest, multi-disciplinary practice, and the attorney-client evidentiary and ethical privilege. The Ethics Rules are law typically adopted by court rule in the same way that the Rules of Civil Procedure are law. These Ethics Rules are just as complex as the Civil Practice Rules or the Evidence Rules. Many of the Ethics Rules cannot be known through some sort of innate or hereditary awareness automatically infused in ordinary human beings once they are admitted to the bar. Unless a student wants to emulate those lawyers who draw a disproportionate number of
