### Healthy Eating- Food Exchange Lists

1. Food Exchange Lists. The following pages separate foods into these seven groups: - Starches - Fruits and Fruit Juices - Milk, Yogurt, and Dairy-like foods - Non-Starchy Vegetables - Sweets, Desserts, and Other Carbohydrates - Meats and Meat Substitutes - Fats. At the top of each section you will find the amount of carbohydrate, protein, fat and calories found in each selection.

### Food Exchange Lists - UCSF Diabetes Teaching Center

Often, the meal plan is a guide which shows the number of food choices to eat at each meal and snack using the diabetic exchange lists. The exchange lists group foods together because they are alike. Foods on each list have about the same amount of carbohydrate, protein, fat and calories. In the amounts given, all choices on each list are equal.

### The Exchange List System for Diabetic Meal Planning - FSHEd 86

Exchange lists were developed in the 1950s to standardize meals for people with diabetes. In the original exchange-list system the diet is divided into six major categories. Foods with similar energy and macronutrient content per single serving were grouped. Each food serving was known as an exchange.
