Read Free Exploring Hyperrealism Drawing And Painting Techniques by ...

Art is often perceived as a way of detachment from reality, a key to unlocking some hidden meaning in the world that surrounds us. This is not completely true for art genres like Hyperrealism, where the line between reality and art is practically erased in paintings and sculptures these artists create. Several branches of realism are clearly focused on producing artwork which resembles a real-life image, some of them even going further and beyond.
