The politics of food is changing fast. In rich countries, obesity is now a more serious problem than hunger. Consumers once satisfied with cheap and convenient food now want food that is also safe, nutritious, fresh, and grown by local farmers using fewer chemicals. Heavily subsidized and under-regulated commercial farmers are facing stronger push-back from environmentalists and consumer activists,

Food Politics Summary - eNotes.com

"Going well beyond its title, Food Politics addresses key questions about agriculture, including consumers' concerns about food safety, producers' concerns about price volatility, and taxpayers' concerns about subsidies. Paarlberg organizes his material around a long list of questions about food policies and practices...His answers to these and many other questions are accessible and nuanced."
