Science curriculum doesn't have to be expensive. A good portion of what we've used for science over the years have been free resources! I remember science being incredibly dry and boring in school and I want my children's science experience to be anything but boring. Because of that, I seek out resources that offer learning through living books and lots and lots of experiments.

Physics (from Ancient Greek: ????? (????????), romanized: physik? (epist?m?), lit. 'knowledge of nature', from ????? physis 'nature') is the natural science that studies matter, its motion and behavior through space and time, and the related entities of energy and force. Physics is one of the most fundamental scientific disciplines, and its main goal is to understand ...
