Adjacent angles are angles that share a common vertex and a common ray and whose interiors do not intersect. The angles next to each other in the diagram above—namely, a and b, b and c, c and d, and d and a—are adjacent angles. Acute angles have measures less than 90 degrees. Obtuse angles have measures greater than 90 degrees but less than 180 degrees. In the diagram above, a and c are acute ...
