Stop waiting for the network team! If basic TCP/IP was hard, network administrators couldn't do it. Servers give sysadmins a incredible visibility into the network-once they know how to unlock it. Most sysadmins don't need to understand window scaling, or the differences between IPv4 and IPv6 echo requests, or other intricacies of the TCP/IP protocols. You need only enough to deploy your own applications and get easy support from the network team. This book teaches you: How modern networks really work; The essentials of TCP/IP; The next-generation protocol, IPv6; The right tools to diagnose network problems, and how to use them; Troubleshooting everything from the physical wire to DNS; How to see the traffic you send and receive; Connectivity testing; How to communicate with your network team to quickly resolve problems A systems administrator doesn't need to know the innards of

TCP/IP, but knowing enough to diagnose your own network issues will transform a good sysadmin into a great one. Fungi are among the most networked creatures in the world. If a mushroom can do it, so can you!

A celebration of evolving taste, told through the stories behind 250 objects sold by the world's leading auction house. Founded in London in 1766, Christie's is one of the most important auction houses in the world. During its history, Christie's has sold masterpieces by artists such as Picasso, Leonardo da Vinci, Rembrandt, and Vincent van Gogh, often at record-breaking prices; and, away from the world of art, the personal possessions of such well-known figures as Napoleon Bonaparte, Marilyn Monroe, Yves Saint Laurent, and Princess Diana. From furniture to works of fine and decorative art, vintage cars to clothing and jewellery, the items sold at its auctions hold a mirror to our history and reflect our culture at large. *Going Once* vividly brings to life the shifts in aesthetic trends, fashion, and design over the centuries, showcasing 250 of the most outstanding objects in its storied history - including some of the very first pieces sold at the auction house.

Following the Pulitzer prize-winning collection *Stag's Leap*, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each

episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

Hyundai and Kia Motors: The Early Years and Product Development by Donald G Southerton provides deep insights into the rise of the Korean car industry. From the 1960s to early 2000s, political and economic forces impacted the growth and development of the South Korean carmakers, including Hyundai and Kia Motors. In addition, the brands at times partnered for technology with Ford, Mazda, and Mitsubishi, along with world class designers like Giorgetto Giugiaro. Expanding rapidly the Korean brands soon looked to new international markets, including the U.S. Despite the failure of Kia Motors to survive the IMF Crisis, the merger with Hyundai led to integrated technology research, development, and manufacturing-- not to mention the economies of scale needed for the Korean automaker to compete globally with industry heavyweights such as Toyota, Ford, GM, and VW. Car models discussed including the Kia's Brisa, Pride, Sephia, Sportage, and Rio along with Hyundai's Pony, Excel and Santa Fe.
