Fault – Crack in top of cylinder head, water mixing with engine oil. Symptoms – Milky colour oil, loss of coolant with no external leaks present, water contamination in engine oil. The first run of J24B engines suffer from cracking in the top of the cylinder head. The crack occurs from one of the three casting bungs that screw into the top of the head (under the rocker cover, between the camshafts), and the crack will normally run to the nearest head bolt hole.

Drawing on a wealth of knowledge and experience and a background of more than 1,000 magazine articles on the subject, engine control expert Jeff Hartman explains everything from the basics of engine management to the building of complicated project cars. Hartman has substantially updated the material from his 1993 MBI book *Fuel Injection* (0-879387-43-2) to address the incredible developments in automotive fuel injection technology from the past decade, including the multitude of import cars that are the subject of so much hot rodding today. Hartman's text is extremely detailed and logically arranged to help readers better understand this complex topic.

An essential masterwork from Chinese literary giant Lu Yao--winner of the Mao Dun Literature Prize--available for the first time in English. Lu Yao published only two novels before his untimely death--but their extraordinary influence catapulted the author to the top tier of Chinese contemporary fiction, establishing him as one of the most widely read and respected figures in Chinese literature. In this first-ever translation of Lu Yao's *Life*, we meet Gao Jialin, a stubborn, idealistic, and ambitious young man from a small country village whose life is upended when corrupt local politics cost him his beloved job as a schoolteacher, prompting him to reject rural life and try to make it in the big city. Against the vivid, gritty backdrop of 1980s China, Lu Yao traces the proud and passionate Gao Jialin's difficult path to professional, romantic, and personal fulfillment--or at least hard-won acceptance. With the emotional acuity and narrative mastery that secured his reputation as one of China's great novelists, Lu Yao paints

a vivid, emotional, and unsparing portrait of contemporary Chinese life, seen through the eyes of a working-class man who refuses to be broken.

Blood on the Street is a riveting account of the Wall Street scam in which ordinary investors lost literally billions of dollars -- in many cases their life savings -- in one of the greatest deceptions ever, by the crack reporter who broke the original story. In one of the most outrageous examples of dirty dealing in the history of Wall Street, hundreds of millions of dollars in illicit profits were made during the booming 1990s as a result of research analysts issuing positive stock ratings on companies that kicked back investment banking business. Now, for the first time, award-winning journalist Charles Gasparino reveals the whole fascinating story of greed, arrogance, and corruption. It was Gasparino's front-page reporting in *The Wall Street Journal* that brought the story to national attention and spurred New York State attorney general Eliot Spitzer to launch an official probe. Now, Gasparino goes behind his own headlines to tell the inside story of this spectacular swindle -- with revelations from his unprecedented access to never-before-published depositions and documents, including e-mail exchanges leading all the way up to Citigroup CEO Sanford Weill. Drawing on his research and interviews with industry insiders, Gasparino takes readers into the back rooms of Wall Street's top investment firms and captures the outsize personalities of three key players: Salomon Smith Barney's Jack Grubman, a braggart with one of the largest salaries on Wall Street; Merrill Lynch's Henry Blodget, the Yale graduate who hyped his way to the top of the research pyramid; and Morgan Stanley's Mary Meeker, the "Queen of the Internet," who foresaw the market catastrophe but gave in to the pressures *Blood on the Street* shows how

regulators, like former SEC chairman Arthur Levitt, allowed the deceptive practices to fester and grow during the 1990s bubble, leaving the door open for a then- little-known attorney general from New York State to step in and make his mark by holding Wall Street accountable. Gasparino provides the first major account of Spitzer's rise to prominence, detailing how the attorney general pursued key players to build his case against Wall Street, including his shifting allegiance to the powerful New York Stock Exchange chairman Richard Grasso. A fast-paced narrative rich in sharp insights, *Blood on the Street* is the definitive book on the financial debacle that affected millions of Americans.

*Witness for the Prosecution and Other Stories* is a collection of eleven tantalizing tales of murder and other criminal pursuits—including the classic title story, the basis for the 1957 Oscar-nominated Billy Wilder film starring Marlene Dietrich, Tyrone Power, and Charles Laughton. A murder trial takes a diabolical turn when the wife of the accused takes the stand. . . . A woman's sixth sense—and a loaded revolver—signal premonitions of doom. . . . A stranded motorist seeks refuge in a remote mansion and is greeted with a dire warning. . . . Detective Hercule Poirot faces his greatest challenge when his services are enlisted—by the victim—in a bizarre locked-room murder. From the stunning title story (which inspired the classic film thriller) to the rarest gems in detective fiction, these eleven tales of baffling crime and brilliant deduction showcase Agatha Christie at her dazzling best.
