While investigating the murder of a U.S. Senator, FBI agent Erica Blake uncovers a drastic, top-secret operation led by rogue American generals. Named Blacksnow, the operation plans to free the USA from the crushing debt owed to the Chinese government. In their quest to become the world's leading power, China has bought massive amounts of American debt. By bankrolling the USA's deficit spending, the Chinese are controlling America's domestic and foreign policy, making the U.S. President a puppet of the Chinese government. But as Erica's investigation deepens, she realizes Blacksnow could plunge America into a world war. Her own life is threatened when she learns top-level people at the FBI are also involved in Blacksnow. Not knowing who to trust, she enlists the help of her lover, CIA agent Steve McCord. Can Erica and Steve expose the conspiracy before the USA is plunged into a worldwide war?

Scott Thompson, guitarist for multi-platinum-selling metal band Flesh Hook, has always been addicted to the adrenaline rush: drag racing, motocross, big game hunts in the African floodplains. He's broken bones, nearly died of exposure, and seared half his leg in a wreck. Nearing forty, he's finding it harder to feed the thrill. Enter The Company, an organization specializing in custom adventure rides—the kind where you sign a waiver absolving them of everything short of death before you get on. Company redneck Johnny Lee loves his job, and he's damned good at it. He's run rides for politicians, celebrities, CEOs and trust-fund kids and never broken character or had a complaint. He expects the Thompson ride to be more of the same—another rock star, this one so full of himself he's signed up for 48 hours, an unprecedented amount of time on the Deliverance set. Rock stars break easily, though, especially the full-of-themselves kind. Everyone breaks more easily than they expect. Even Johnny Lee. (Roughing It is a novella featuring kidnapping and m/m and m/m/m consensual rough sex.)

On the main island, Azeroth Prime, a medieval civilization exists. Brewing outside the walls of its capital city is an evil force unlike any other. This treacherous army has intentions of laying waste to the last bastion of goodness, honor and peace. Its sorceresses and shamans will summon from beneath the earth's surface hideous and ferocious creatures created for destruction. Like a shadow of a hawk looming over its prey, the army will advance with frightening mystical powers to begin its devastation. Will the evil army underestimate the strength and power of the people of Azeroth Prime? Will help somehow be summoned to their aid? Can their small civilization survive the onslaught of darkness?

Part of a successful series that aims to share and celebrate the history of graffiti, Color Me Graffiti is back with an exciting new adventure into street art. It delivers the freshest styles, characters and illustrations - but this time has a regional slant, with writers being showcased from all corners of Germany, brought together for maximum colouring fun - a must for all urban culture addicts.

The rains came and washed away the world of man. The waters covered the Earth. Everyday life became a struggle for those who survived the floods. Pirates roamed the oceans preying on the weak. Admiral Campbell's vast armada, known as the Fleet, and the massive platform city of Dry Dock became the last holdouts of civilization. While mankind continued to make war with itself, a new evil was growing. Beneath the waves, life mutated in the wake of the great flood giving birth to the Megalodons and now the final battle for dominion over the Earth has come.
