Carbohydrates give the body energy. They are in many foods people eat each day. But some carbohydrates are healthier than others. Your Body on Carbohydrates uncovers the nutritional benefits of carbohydrates, how they interact with the body, and how to include them as part of a balanced diet. Easy-to-read text, vivid images, and helpful back matter give readers a clear look at this subject. Features include a table of contents, infographics, a glossary, additional resources, and an index. Aligned to Common Core Standards and correlated to state standards. Core Library is an imprint of Abdo Publishing, a division of ABDO.

A basic guide to the inspection, repair, and maintenance of tires and tracks for off-road vehicles.

The People, Place, and Space Reader brings together the writings of scholars, designers, and activists from a variety of fields to make sense of the makings and meanings of the world we inhabit. They help us to understand the relationships between people and the environment at all scales, and to consider the active roles individuals, groups, and social structures play in creating the environments in which people live, work, and play. These readings highlight the ways in which space and place are produced through large- and small-scale social, political, and economic practices, and offer new ways to think about how people engage the environment in multiple and diverse ways. Providing an essential resource for students of urban studies, geography, sociology and many other areas, this book brings together important but, till now, widely dispersed writings across many inter-related disciplines. Introductions from the editors precede each section; introducing the texts, demonstrating their significance, and outlining the key issues surrounding the topic. A companion website, PeoplePlaceSpace.org, extends the work even further by providing an on-going series of

additional reading lists that cover issues ranging from food security to foreclosure, psychiatric spaces to the environments of predator animals.

Gluten is found in wheat and some other grains. It's in foods people eat every day. Many people can eat it without problems. Others have a disease that makes gluten damage their bodies. *Your Body on Gluten* uncovers the nutritional benefits of foods containing gluten, how gluten interacts with the body, and how to include it as part of a balanced diet. Easy-to-read text, vivid images, and helpful back matter give readers a clear look at this subject. Features include a table of contents, infographics, a glossary, additional resources, and an index. Aligned to Common Core Standards and correlated to state standards. Core Library is an imprint of Abdo Publishing, a division of ABDO.

This title examines the history of the Washington Redskins, telling the story of the franchise and its top players, greatest games, and most thrilling moments. This book includes informative sidebars, high-energy photos, a timeline, a team file, and a glossary. SportsZone is an imprint of Abdo Publishing Company.

For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.

The Oil Trading Manual (OTM) provides a unique and comprehensive reference source to the latest developments in the structure and conduct of the international oil markets including: Physical characteristics and refining Oil pricing arrangements Physical oil markets Forward and futures contracts Options and swaps Operations and logistics Accounting and taxation Controlling financial risk Legal and regulatory control OTM provides a unique and comprehensive reference source to the structure and conduct of the international oil markets. The manual covers all the major oil trading instruments and their applications; the trading centres, contracts, uses and users of both the physical and the terminal oil markets, and their administrative, management, tax, and accounting implications. It also includes vital information on changes to the international legal and regulatory structures. The manual is divided into three complementary parts; Characteristics An introduction to oil and oil trading, and includes material on the nature of oil as a commodity, refinery processes and the different ways in which oil is priced. Instruments and markets Deals with the oil market itself taking each segment in turn, explaining how the various trading instruments work and describing the markets that have evolved to trade them. It starts with the physical oil markets, moving on to forward and futures markets, followed by options and swaps. Administration Covers the essential 'back-room' activities without which oil trading could not continue. It includes practical material on operations and logistics, credit control, accounting, taxation, contracts and regulation, and controlling financial risk, providing a unique guide to the subject. Compiled from the contributions of a range of internationally respected professionals, it is the indispensable practical companion for all those involved with trading in this complex commodity. Revised and updated 2003

The first major book on Japanese textile artist Itchiku Kubota, published to accompany a touring exhibition.

These guidelines have been prepared to offer practical help and guidance to all those involved in using pesticides for food and fibre production as well as in public health programmes. The guidelines in this document cover the application of pesticides using any ground-based field crop sprayers, including operator-carried and tree and bush crop sprayers.
