Swapping a toyota engine into my 110 ... - Land Rover Forum Initially the engines used were modified versions of standard Rover car petrol engines, but the need for dedicated in-house units was quickly realised. The first engine in the series was the 1.6-litre petrol of 1957, and this design was improved, expanded and modified over several versions, culminating in the 300Tdi of 1994, which ceased production in 2006. Over 1.2 million engines in the series have been built. From 1998 the Td5 engine was fitted to Land Rover products. Whilst this 5-cylinder 1
