Lenin: A Biography - Amazon.co.uk: Robert Service ...

Robert Service's Lenin is a political colossus but also a believable human being. This biography stresses the importance of his supportive family and of its ethnic and cultural background. Service examines his education, upbringing, and the troubles of his early life to explain the emergence of a rebel whose devotion to destruction proved greater than his love for the 'proletariat' he supposedly served.

Lenin is a colossal figure whose influence on twentieth-century history cannot be underestimated. Robert Service has written a calmly authoritative biography on this seemingly unknowable figure. Making use of recently opened archives, he has been able to piece together the private as well as the public life, giving the first complete picture of Lenin. This biography simultaneously provides an account of one of the greatest turning points in modern history. Through the prism of Lenin's career, Service examines events such as the October Revolution and the ideas of Marxism-Leninism, the one-party state, economic modernisation, dictatorship, and the politics of inter-war Europe. In discovering the origins of the USSR, he casts light on the nature of the state and society which Lenin left behind and which have not entirely disappeared after the collapse of the Soviet regime in 1991. 'Immensely scholarly but also vivid and readable. This is a splendid book, much the best that I have ever read about Lenin...I was overwhelmed by the power and vividness of this portrait.' Dominic Lieven, Sunday Telegraph 'He has managed skilfully to depict the surreal life of an obsessive, brilliant and stubborn individual' Guardian 'Lenin's life was politics, but Service has succeeded in keeping Lenin the man in focus throughout... This book deserves a place among the best studies of one of the most fascinating figures in modern history' Harold Shukman, The Times

Trotsky is perhaps the most intriguing and, given his prominence, the most understudied of the Soviet revolutionaries. Using new archival sources, Robert Service offers new insights. He discusses Trotsky's fractious relations with the leaders he was trying to unify; his attempt to disguise his political closeness to Stalin; and his role in the early 1920s as the progenitor of political and cultural Stalinism. Trotsky evinced a surprisingly glacial and schematic approach to making revolution. Service recounts Trotsky's role in the botched German revolution of 1923; his willingness to subject Europe to a Red Army invasion in the 1920s; and his assumption that peasants could easily be pushed onto collective farms. Although Trotsky's followers clung to the stubborn view of him as a pure revolutionary and a powerful intellect unjustly hounded into exile by Stalin, the reality is very different.—From publisher description.

Overthrowing the conventional image of Stalin as an uneducated political administrator inexpicably transformed into a pathological killer, Robert Service reveals a more complex and fascinating story behind this notorious twentieth-century figure. Drawing on unexplored archives and personal testimonies gathered from across Russia and Georgia, this is the first full-scale biography of the Soviet dictator in twenty years. Service describes in unprecedented detail the first half of Stalin's life—his childhood in Georgia as the son of a violent, drunkard father and a devoted mother; his education and religious training; and his political activity as a young revolutionary. No mere messenger for Lenin, Stalin was a prominent activist long before the Russian Revolution. Equally compelling is the depiction of Stalin as Soviet leader. Service recasts the image of Stalin as unimpeded despot; his control was not limitless. And his conviction that enemies surrounded him was not entirely unfounded. Stalin was not just a vengeful dictator but also a man fascinated by ideas and a voracious reader of Marxist doctrine and Russian and Georgian literature as well as an internationalist committed to seeing Russia assume a powerful role on the world stage. In examining the multidimensional legacy of Stalin, Service helps explain why later would-be reformers—such as Khrushchev and Gorbachev—found the Stalinist legacy surprisingly hard to dislodge. Rather than diminishing the horrors of Stalinism, this is an account all the more disturbing for presenting a believable human portrait. Service's lifetime engagement with Soviet Russia has resulted in the most comprehensive and compelling portrayal of Stalin to date.

A riveting account of the last eighteen months of Tsar Nicholas II's life and reign from one of the finest Russian historians writing today. In March 1917, Nicholas II, the last Tsar of All the Russias, abdicated and the dynasty that had ruled an empire for three hundred years was forced from power by revolution. Now, on the hundredth anniversary of that revolution, Robert Service, the eminent historian of Russia, examines Nicholas's life and thought from the months before his momentous abdication to his death, with his family, in Ekaterinburg in July 1918. The story has been told many times, but Service's deep understanding of the period and his forensic examination of previously untapped sources, including the Tsar's diaries and recorded conversations, as well as the testimonies of the official inquiry, shed remarkable new light on his troubled reign, also revealing the kind of Russia that Nicholas wanted to emerge from the Great War. The Last of the Tsars is a masterful study of a man who was almost entirely out of his depth, perhaps even willfully so. It is also a compelling account of the social, economic and political ferment in Russia that followed the February Revolution, the Bolshevik seizure of power in October 1917 and the beginnings of Lenin's Soviet socialist republic.

The first history of modern Russia from 1991 to the present day by one of the leading historians of the 20th century USSR and Russia. In 1991, in a huge experiment with a people and in a state of euphoria, Boris Yeltsin abolished the USSR and recreated the Russian nation. At the point of its declaration is was in a state of economic and social disarray and yet there were high hopes. Hopes which have subsequently been dashed. Robert Service brings to bear his vast knowledge of the people and the country to put the recent upheavals into context and he shows that not everything changed for the worst 1991. The Gorbachev years have allowed the Russian people to give a priority to living a private life and shutting the door on the state. They could think what they liked. The could enjoy intellectual and religious freedom, and indulge in recreations their income would allow. Gays and Lesbians could come 'out'. The Youth culture could finally be loosed from constraints. This is a broad political, social and cultural history of one of the newest nations ever to be formed.

A spellbinding new biography of Stalin in his formative years This is the definitive biography of Joseph Stalin from his birth to the October Revolution of 1917, a panoramic and often chilling account of how an impoverished, idealistic youth from the provinces of tsarist Russia was transformed into a cunning and fearsome outlaw who would one day become one of the twentieth century's most ruthless dictators. In this monumental book, Ronald Grigor Suny sheds light on the least understood years of Stalin's career, bringing to life the turbulent world in which he lived and the extraordinary historical events that shaped him. Suny draws on a wealth of new archival evidence from Stalin's early years in the Caucasus to chart the psychological metamorphosis of the young Stalin, taking readers from his boyhood as a Georgian nationalist and romantic poet, through his harsh years of schooling, to his commitment to violent engagement in the underground movement to topple the tsarist autocracy. Stalin emerges as an ambitious climber within the Bolshevik ranks, a resourceful leader of a small terrorist band, and a writer and thinker who was deeply engaged with some of the most incendiary debates of his time. A landmark achievement, Stalin paints an unforgettable portrait of a driven young man who abandoned his religious faith to become a skilled political operative and a single-minded and ruthless rebel.

The special assistant to Boris Yeltsin radically alters the traditional image of Lenin with a biography based on secret Soviet archives, revealing the Founding Father as a cruel, totalitarian leader who was responsible for the worst excesses of the Soviet state.

On 26 December, 1991, the hammer-and-sickle flag was lowered over the Kremlin for the last time. Yet, just six years earlier, when Mikhail Gorbachev became general secretary of the Communist Party of the Soviet Union and chose Eduard Shevardnadze as his foreign minister, the Cold War seemed like a permanent fixture in world politics. Until its denouement, no Western or Soviet politician foresaw that the standoff between the two superpowers – after decades of struggle over every aspect of security, politics, economics, and ideas – would end within the lifetime of the current generation. Nor was it at all obvious that that the Soviet political leadership would undertake a huge internal reform of the USSR, or that the threat of a nuclear Armageddon could or would be peacefully wound down. Drawing on pioneering archival research, Robert Service's gripping investigation of the final years of the Cold War pinpoints the extraordinary relationships between Ronald Reagan, Gorbachev, George Shultz, and Shevardnadze, who found ways to cooperate during times of exceptional change around the world. A story of American pressure and Soviet long-term decline and overstretch, The End of the Cold War: 1985-1991 shows how a small but skillful group of statesmen grew determined to end the Cold War on their watch and transformed the global political landscape irreversibly.

'One of our most accomplished, erudite and prolific historians of modern Russia.' Rodric Braithwaite, New Statesman Vladimir Putin has dominated Russian politics since Boris Yeltsin relinquished the presidency in his favour in May 2000. He served two terms as president, before himself relinquishing the post to his prime minister, Dimitri Medvedev, only to return to presidential power for a third time in 2012. Putin's rule, whether as president or prime minister, has been marked by a steady increase in domestic repression and international assertiveness. Despite this, there have been signs of liberal growth and Putin – and Russia – now faces a far from certain future. In Kremlin Winter, Robert Service, acclaimed biographer of Lenin, Stalin and Trotsky and one of our finest historians of modern Russia, brings his deep understanding of that country to bear on the man who leads it. He reveals a premier who cannot take his supremacy for granted, yet is determined to impose his will not only on his closest associates but on society at large. It is a riveting insight into power politics as Russia faces a blizzard of difficulties both at home and abroad.
