Car battery chargers | 12v Battery charger | Halfords UK

Car battery chargers are primarily used for recharging flat vehicle batteries, usually caused by old age, extremes in temperature or leaving vehicle electrics on without the engine running. The introduction of intelligent chargers now means that they can also analyse and recondition car batteries, lengthening their lifespan and reliability.

LiFe Batteries - RC World

From my correspondence with TecMate about their OptiMATE DC to DC charger, charging LifePO4 and charging Li-ion is different and a LifePO4 charger will not charge Li-ion. It seems to me that as long as I have the starter battery isolated the worse case scenario is that I blow the fuse on the mppt charge controller. What do you think?
