Presents the basics of writing legal briefs and giving oral arguments, with discussions on the essentials of building a case through legal reasoning and the key elements of persuasive and successful oral pleading in the courtroom.

A new edition of the classic in legal writing covers the basics of the field with new examples that illuminate mechanics, word choice, structure, and rhetoric.

Good legal writing wins court cases. It its first edition, The Winning Brief proved that the key to writing well is understanding the judicial readership. Now, in a revised and updated version of this modern classic, Bryan A. Garner explains the art of effective writing in 100 concise, practical, and easy-to-use sections. Covering everything from the rules for planning and organizing a brief to openers that can capture a judge's attention from the first few words, these tips add up to the most compelling, orderly, and visually appealing brief that an advocate can present. In Garner's view, good writing is good thinking put to paper. "Never write a sentence that you couldn't easily speak," he warns-and demonstrates how to do just that. Beginning each tip with a set of quotable quotes from experts, he then gives masterly advice on building sound paragraphs, drafting crisp sentences, choosing the best words ("Strike pursuant to from your vocabulary."), quoting authority, citing sources, and designing a document that looks as impressive as it reads. Throughout, he shows how to edit for maximal impact, using vivid before-and-after examples that apply the basics of rhetoric to persuasive writing. Filled with examples of good and bad writing from actual briefs filed in courts of all types, The Winning Brief also covers the new appellate rules for preparing federal briefs. Constantly collecting material from his seminars and polling judges for their preferences, the second edition delivers the same solid guidelines with even more supporting evidence. Including for the first time sections on the ever-changing rules of acceptable legal writing, Garner's new edition keeps even the most seasoned lawyers on their toes and writing briefs that win cases. An invaluable resource for attorneys, law clerks, judges, paralegals, law students and their teachers, The Winning Brief has the qualities that make all of Garner's books so popular: authority, accessibility, and page after page of techniques that work. If you're writing to win a case, this book shouldn't merely be on your shelf--it should be open on your desk.

Writing in the tradition of Karl Llewellyn's classic The Bramble Bush, Paul Kahn speaks in this book simultaneously to students and scholars. Drawing on thirty years of teaching experience, Kahn introduces students to the deep, narrative structure of the judicial opinion. Learning to read the opinion, the student learns the nature of legal argument. Thus Kahn's exposition of the opinion simultaneously offers a theory of legal meaning that will be of great interest to scholars of law, humanities, and the social sciences. At the center of Kahn's approach are ideas of narrative, persuasion, and self-government. His sweeping account of interpretation in law offers innovative views of the nature of authorship, the development and decline of doctrine, and the construction of facts.

The first full-scale biography of the Supreme Court's most provocative—and influential—justice If the U.S. Supreme Court teaches us anything, it is that almost everything is open to interpretation. Almost. But what's inarguable is that, while the Court has witnessed a succession of larger-than-life jurists in its two-hundred-year-plus history, it has never seen the likes of Supreme Court Justice Antonin Scalia. Combative yet captivating, infuriating yet charming, the outspoken jurist remains a source of curiosity to observers across the political spectrum and on both sides of the ideological divide. And after nearly a quarter century on the bench, Scalia may be at the apex of his power. Agree with him or not, Scalia is "the justice who has had the most important impact over the years on how we think and talk about the law," as the Harvard law dean Elena Kagan, now U.S. Solicitor General, once put it. Scalia electrifies audiences: to hear him speak is to remember him; to read his writing is to find his phrases permanently affixed in one’s mind. But for all his public grandstanding, Scalia has managed to elude biographers—until now. In American Original: The Life and Constitution of Supreme Court Justice Antonin Scalia, the veteran Washington journalist Joan Biskupic presents for the first time a detailed portrait of this complicated figure and provides a comprehensive narrative that will engage Scalia’s adherents and critics alike. Drawing on her long tenure covering the Court, and on unprecedented access to the justice, Biskupic delves into the circumstances of his rise and the formation of his rigorous approach to the bench. Beginning with the influence of Scalia's childhood in a first-generation Italian American home, American Original takes us through his formative years, his role in the Nixon-Ford administrations, and his trajectory through the Reagan revolution. Biskupic's careful reporting culminates with the tumult of the contemporary Supreme Court—where it was and where it's going, with Scalia helping to lead the charge. Even as Democrats control the current executive and legislative branches, the judicial branch remains rooted in conservatism. President Obama will likely appoint several new justices to the Court—but it could be years before those appointees change the tenor of the law. With his keen mind, authoritarian bent, and contentious rhetorical style, Scalia is a distinct and persuasive presence, and his tenure is far from over. This new book shows us the man in power: his world, his journey, and the far-reaching consequences of the transformed legal landscape.

This succinct, entertaining book covers a wide variety of critical thinking skills and offers abundant practice in applying those skills to students' writing.

This brief introduction to making effective arguments helps readers to understand the basics of sound reasoning and to learn how to use it to persuade others. Practical, inexpensive, and easy-to-read, the book enables students in a wide variety of courses to improve the clarity of their writing and public speaking. It equips readers to formulate firmly grounded, clearly articulated, and logically arranged arguments, avoid fallacious thinking, and discover how to reason well. This supplemental text is especially suitable for use in Christian colleges and seminaries and includes classroom discussion questions.

This is a book or art, and songs, that I wrote. I just placed my songs, on computer, that were hand written. I just wanted a different style of book.

Our consumer society needs a reality check. The landfills are overflowing, the oceans are full of plastic, North American money is now used by China to buy more weapons, and still we think a product that lasts only 4 years is a good one. This book contains over 170 tips, tricks and hacks to help you repair, reuse, lead a simpler life and save money. We have entered a Grand Solar Minimum and it will get colder. This is your Darwin Moment. Survival will no longer be simple, but if you are prepared it will be easier. Inside is a guide inspired by the wisdom of the do-it-yourselfers of 100 years ago. Find out how to use tools, make things last longer, repair them when they break and live a simpler life. Make something at adult education night.Find out which tools are actually useful. How to remove a car engine in your back yard. Get through snow drifts using snow The uses of a come-along winch. Strengthen weak and wobbly furniture. Bend metal with a metal bender. Repair broken windows and dripping taps. Reset the oven temperature on your electric stove. What to do about a "bang" in the fridge. Fix your electric stove elements.
