The winning article for 2006 is "Performance Measures in Supply Chains" by Kim Langfield-Smith and David Smith, which was first published in CPA Australia's Australian Accounting Review. The article examines the benefits and challenges of supply chain management.

Management Accounting: Information for Creating and Managing Value 6e explains the contemporary role of management accounting in organisations and demonstrates how it creates and enhances value for shareholders. This text has been developed using major cases based on real Australian businesses and includes numerous illustrations of current management accounting practices of organisations in Australia, New Zealand and the wider Asia-Pacific region. It takes a broad perspective in viewing management accounting as the efficient and effective use of resources, supporting managers in the improvement of customer and shareholder value. The strategic and topical focus has been further developed and strengthened, new questions have been added, text-flow streamlined and extensive revisions have been made to capital expenditure decisions, activity and target-based costings, corporate social responsibility, and supply chain management. Respected authors, a clear writing style and a wealth of features that reference the management accounting practices of real-life companies have made Management Accounting the most popular management accounting text in Australia.

This new Southern African edition of Kim Langfield-Smith and Helen Thorne's best-selling Australian Management Accounting text explains the contemporary role of management accounting in organisations - supporting a company's quest for enhancing shareholder and customer value. The effective management of resources, both financial and non-financial, is essential to creating value. Retaining the strategic approach and comprehensive coverage but thoroughly adapted for Southern Africa, Management Accounting Southern African edition is suitable for the one- or two-semester undergraduate course, and is ideal for use over two years of study.

This new edition explains the contemporary role of management accounting in organisations - supporting a company's quest for enhancing shareholder and customer value. The effective management of resources, both financial and non-financial is essential to creating value. Includes many Australian and regional case studies.

Volume one of the Handbooks of Management Accounting Research sets the context for both Handbooks, with three chapters outlining the historical development of management accounting as a discipline and as a practice in three broad geographic settings. The bulk of the first volume then draws together a series of contributions that analyse the scholarly literature in terms of distinct intellectual and theoretical social science perspectives. The volume includes a chapter which looks at work informed by psychology as a base discipline. The volume also includes a set of chapters that seek to evaluate and explain issues of research method for the different approaches to research found within management accounting. Special pricing available if purchased as a set with Volume 2. Documents the scholarly management accounting literature Publishing both in print, and online through Science Direct International in scope

Providing a clear and concise overview of the conduct of applied research studies in accounting, Malcolm Smith presents the principal building blocks of how to implement research in accounting and related fields.

This is a text for introductory courses on cost and management accounting. It provides coverage of the elementary principles and techniques of costing and management accounting, and concentrates on the typical syllabus of a first year BA course.

For non-accountant hospitality managers, accounting and financial management is often perceived as an inaccessible part of the business. Yet having a grasp of accounting basics is a key part of management. Using an 'easy to read' style, this book provides a comprehensive overview of the most relevant accounting information for hospitality managers. It demonstrates how to organise and analyse accounting data to help make informed decisions with confidence. With its highly practical approach, this new Edition: Quickly develops the reader's ability to adeptly use and interpret accounting information to further organisational decision making and control Demonstrates how an appropriate analysis of financial reports can drive your business strategy forward from a well-informed base Develops mastery of key accounting concepts through financial decision making cases that take a hospitality manager's perspective on business issues Presents accounting problems in the context of a range of countries and currencies Includes a new chapter that addresses a range of financial management topics that include share market workings, agency issues, dividend policy as well as operating and financial leverage Includes a further new chapter that provides a financial perspective on revenue management Includes accounting problems at the end of each chapter to be used to test knowledge and apply understanding to real life situations Offers extensive web support for instructors and students that includes powerpoint slides, solutions to end of chapter problems, test bank and additional exercises. The book is written in an accessible and engaging style and structured logically with useful features throughout to aid students' learning and understanding. It is a key resource for all future hospitality managers.

Other chapters deal with newly emerging concerns in management accounting, including network relations, integrated cost management systems, knowledge management pursuits, environmental management accounting, and accounting and digitisation. Each chapter encompasses discussions of basic premises complemented by insights from modern day practice, research and thought. This makes the book particularly suitable for students in intermediate, advanced and executive level courses in management accounting. It also provides an extensive corpus of discussions, which will inform those in practice. Readers interested in gaining direct insights into specialised management accounting areas will find this book to be an especially valuable reference source

Introduction to Managerial Accounting, 4/e by Brewer/Garrison/Noreen is based on the market-leading text, Managerial Accounting, by Garrison, Noreen and Brewer. However, this is not simply a briefer book with chapters removed; B/G/N has been rethought and retooled to meet the needs of the market. B/G/N 4/e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.
