relations, was born on March 30, 1882, and she died on September 22, 1960. Born Melanie Reizes in Vienna, Austria, her initial ambition was to attend medical school. She later married Arthur Klein at age 21 and had two children, Melitta (1904) and Hans (1907).

## **Biography of Psychologist Melanie Klein Biography**

Melanie Klein made an original and significant contribution to twentieth-century psychoanalysis through a collection of papers published between 1921 and 1963. She was a pioneer of child psychoanalysis, inventor of the 'play technique' which enables children to express themselves through the use of toys, founder of the British 'object relations' school of psychoanalysis, and an early theoretician of emotions and their significance in human development.

## **Melanie Klein | Jewish Women's Archive**

Klein followed this debate with some of her most important work over the next decade. Klein's 1932 book *The Psychoanalysis of Children* proposed that the infant has a primary object relation to the mother and experiences a psychic life dominated by sadistic phantasies deriving from an innate aggressive drive. Then in a seminal paper entitled "A contribution to the psychogenesis of manic depressive states" (1935/1984), written a short time after the death of her son Hans, Klein explored ...
