Methods For Evaluating Tobacco Control

The handbook presents theoretical models, methods, useful data resources and practical tools for evaluating various interventions targeting tobacco use, such as laws, regulations and administrative decisions. Four broad themes are covered in the guide. They include: methods to determine the effects of a policy,

IARC: Methods for Evaluating Tobacco Control Policies ...

This volume concentrates on evaluating the impact of societal level interventions to control tobacco use and it is offered as a guide to evaluators in the field. The Handbook covers how the effects of a policy are determined, the core constructs for understanding how and why a given policy works, the potential moderator variables to consider when evaluating a given policy and the data sources that might be useful for evaluation.

Methods for Evaluating Tobacco Control Policies

The Tobacco Control Country Profiles and the NATIONS electronic data system have identified a variety of indicators to monitor tobacco control within nations: smoking prevalence and consumption, laws and regulations, morbidity and mortality, industrial organisations, tobacco economics, and programmatic tobacco control interventions. 15 Data assessing countries' resources and infrastructure to deliver interventions are also needed. Developing conceptual models of what works and determining a ...
