## Mitsubishi Eclipse 420a Manual Transmission Fluid Fill Plug Location

The transmission fluid in a Mitsubishi should be changed between 15,000 and 30,000 miles, depending on your driving conditions. Since a transmission is more likely to undergo a hefty amount of strain in highly polluted areas, it is possible that thickened sludge and harmful particles would enter your transmission closer to the 15,000 mile-mark.

...

This fluid is used in most Mitsubishi manual transmissions. With this fluid you will get the best shift quality with long bearing and thrust life. Gear tooth wear will also be smooth and shiny unlike many other oils out there which give a smeared and wiped out look to the tooth due to the fluid's inability to withstand high torque conditions.
