Pivotal role in patient care for radiographers Delivering consistent levels of education and training throughout Europe remains an important challenge as radiographers play an increasingly pivotal role in patient care and patient safety.

~~Pivotal role in patient care for radiographers~~

The imaging staff found that care is expressed in an administrative, an instrumental, and a compassionate sense. The imaging staff perceived care in a way that clearly differs from the traditional perception of care

We welcome radiography
research submissions that
embrace robust and innovative
qualitative, quantitative and
mixed method approaches.
Radiography is essential reading
for researchers, radiographer
practitioners*, radiography
educators and student
radiographers. We aim to
influence clinical practice and
patient care by informing
practitioners, managers, leaders
and policy makers working within
or aligned to clinical imaging and
radiation therapy services.

Radiographers employ a range of techniques to produce high quality images to diagnose an injury or disease. We are responsible for providing safe and accurate imaging examinations and often also the resultant report.

~~Welcome to the Society and
College of Radiographers ...~~

Section 1: Relationships with Patients and Carers 1.1. You must provide the best compassionate care for patients based on up to date evidence. The best care means that patients can be assured that your practice in undertaking examinations and/or treatments is compassionate, optimal and based on best evidence.

Patient Care In Radiography The
Principals of this course are based
on giving patients the best
possible care, long term or short
term. It touches on safety for you
and your patient, transferring
patients, patient assessment,
infection control, venipuncture,
patient communication and many
other helpful skills that are placed
upon techs on a daily basis.

patient procedures and imaging modalities. To ensure safe and effective patient care, key concepts are demonstrated visually and always applied to clinical practice.

~~Patient Care in Radiography—E-Book: With an Introduction ...~~

This type of care, which has been tailored to suit the patient's needs, is not just for patients who cannot speak English or patients who are in pain. Each patient that comes in for a scan needs to be treated individually as everyone has preferences and it is the job of the radiographer to guarantee patient satisfaction on both a healthcare and social level.
