This broadly based reference - edited by a leading researcher with a varied background in both the pharmaceutical and medicinal aspects of aerosol technology - covers all aspects of aerosol therapy and offers logical development of important concepts to organize comprehensively the body of knowledge in this multidisciplinary field.;Discussing in detail the physiologic, pharmacologic, metabolic ...

~~Pharmaceutical inhalation aerosol technology by Hickey ...~~

Rapid inspiration is not recommended when using pMDIs and nebulizers, since it creates a turbulent air flow and fast velocity which increases the deposition by impaction in the upper airways.¹⁷ However, rapid inspiratory air flow is required to deagglomerate drug particles for inhalation in DPI devices.¹⁸ Medical personnel should train the patients when the device for their medication is changed. For a proper aerosol deposition, patients are advised to take a deep initial breath, and then ...
