social and economic underpinnings of Islamic mysticism across centuries and geographical regions, paying special attention to the institutional dimensions of Sufism and complex relations between Sufis and the societies in which they played a wide variety of important roles.

The most broadly accepted explanation of Sufism is the etymological derivation of the term from the Arabic for "wool," *ṣūf*, associating practitioners with a preference for poor, rough clothing. This explanation clearly identifies Sufism with ascetical practice and

the importance of manifesting spiritual poverty through material poverty. In fact, some of the earliest “Western” descriptions of individuals now widely associated with the larger phenomenon of Sufism identified them with the Arabic term *faqīr*, mendicant, or its most common Persian equivalent, *darwīsh*. Sufism, as presented here embraces a host of features including the ritual, institutional, psychological, hermeneutical, artistic, literary, ethical, and epistemological. This second edition of *Historical Dictionary of Sufism*

contains a chronology, an introduction, a glossary, and an extensive bibliography. The dictionary section has over 1,000 cross-referenced entries on important personalities, major historical figures and movements, practices, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about Sufism.

specified in the Sierra Leone junior secondary science syllabus. There are three pupil's books, each accompanied by a teacher's book, which provides teaching notes on each of the topics and answers to the excercises.

With her award-winning debut novel, *Purple Hibiscus*, Chimamanda Ngozi Adichie was heralded by the Washington Post Book World as the "21st century daughter" of Chinua Achebe. Now, in her masterly, haunting new novel, she recreates a seminal moment in modern African history: Biafra's impassioned struggle to

establish an independent republic in Nigeria during the 1960s. With the effortless grace of a natural storyteller, Adichie weaves together the lives of five characters caught up in the extraordinary tumult of the decade. Fifteen-year-old Ugwu is houseboy to Odenigbo, a university professor who sends him to school, and in whose living room Ugwu hears voices full of revolutionary zeal. Odenigbo's beautiful mistress, Olanna, a sociology teacher, is running away from her parents' world of wealth and excess; Kainene, her urbane twin, is taking over their

father's business; and Kainene's English lover, Richard, forms a bridge between their two worlds. As we follow these intertwined lives through a military coup, the Biafran secession and the subsequent war, Adichie brilliantly evokes the promise, and intimately, the devastating disappointments that marked this time and place. Epic, ambitious and triumphantly realized, *Half of a Yellow Sun* is a more powerful, dramatic and intensely emotional picture of modern Africa than any we have had before.

Paul often says that God

"justifies" people in Christ, but what does that mean God does? The language appears legal, but many other interpretations have been suggested. Beginning from the use of this language in Judaism and early Christianity, James B. Prothro investigates biblical legal conflicts and the terminology of "justification" in Paul's letters to determine what it means for Paul to say that God as judge is the "justifier" of those who trust in Christ. -- Ꞥ From publisher's description.

related matters cannot be overemphasized. Despite modern global advancements, indigenous communication methods assume a large part of health practices in rural regions throughout the world, including areas in Africa and Asia. Indigenous language remains one of the strongest means of communication and a vital function in local communities across the globe.
