The third novel in the Sianim series from the #1 New York Times bestselling author of the Mercy Thompson series and the Alpha and Omega novels... When Rialla was young, slave traders from Darran ambushed her clan, killing all the men and enslaving the women and children. For years, Rialla lived in bondage, serving her master while waiting for a chance to escape. When that chance came, she made the best of it—and fled to the mercenary nation of Sianim... Now she can strike back at her former masters. A lord in Darran seeks to outlaw slavery—but there are plots to kill him before he can. Rialla is chosen by the spymaster of Sianim to

prevent the murder—and is plunged into a world of deadly magic, where gods walk in human form. Where her most trusted companions are not what they claim. And where Rialla could be enslaved again...

Metaheuristics are widely used to solve important practical combinatorial optimization problems. Many new multicast applications emerging from the Internet—such as TV over the Internet, radio over the Internet, and multipoint video streaming—require reduced bandwidth consumption, end-to-end delay, and packet loss ratio. It is necessary to design an

The Manual focuses on the fieldside diagnosis and treatment of severe injuries and illnesses that can present at a sports event. It concentrates on basic diagnostic skills and treatment modalities as the sports physician has often limited diagnostic and treatment facilities available. Each chapter concentrates on an illness or anatomical injury and offers a structured diagnostic and therapeutic approach in this difficult pre-hospital environment. The chapters explain what problems are to be expected with specific conditions as well as which treatment plan should be implemented and how to evaluate

Victorian pioneer, now brought to life for the first time in this engaging and thoroughly entertaining biography. His work is iconic: the first icons of the modern visual age. Men, women, boxers, wrestlers, racehorses, elephants and camels frozen in time, captured in the act of moving, fighting, galloping, living. Scarcely a day goes by without their derivate use somewhere in today's media. And if most of us have seen Muybridge's distinctive stop-motion photographs, all of us have seen the fruit of his extraordinary technological innovation: today's cinema and television. But it is his personal life that possesses all the ingredients of a classic non-fiction best-seller: a passionately driven

man struggling against the odds; dire treachery and shocking betrayal; a cast of larger-than-life characters set against a backdrop of San Francisco and the Far West in its most turbulent and dangerous era; a profusion of scientific and artistic advances and discoveries, one hotly following on another; the nervous intensity of two spectacular courtroom dramas (one pitting Muybridge against the richest man in the land and staring ruin in the face, the other sees him fighting for his life). And for the opening act, a foul murder on a dark and stormy night. Skillfully articulating the fascinating history of a now ubiquitous technology, author Brian Clegg combines ingredients from science and biography to create an eminently
