Product design rendering and sketching by product tank Product Design Sketching (annotation, what, how and why) Product Design Sketching (making design pages shout) - part 2 Industrial Design Books | Recommendations for new designers Sketching Product Design Presentation

For designers, sketching is a daily activity that can serve many goals. You can sketch to brainstorm, to find and articulate ideas or to present a project to other designers in your team or people from other departments. And of course you sketch to present projects to clients and production companies.

Explanatory sketches are created to
explain function, structure and form.
They communicate a design in a clear
and neutral manner, focusing more on
explaining the idea rather than selling
it. Explanatory sketches must be
readable to other people than those
involved in the design process.
