Explains how to tune in news and entertainment from countries around the world, rates various world band radios, and provides a detailed broadcasting schedule

Explains how to tune in news and entertainment from countries around the world, rates various world band radios, and provides a detailed broadcasting schedule

Read James Wesley, Rawles's posts on the Penguin Blog In the vein of Sam Sheridan's The Disaster Diaries, a comprehensive guide to preparing for the apocalypse! With the recent economic crisis, formerly unimaginable scenarios have become terrifyingly real possibilities- learn how to prepare for the worst Global financial collapse, a terrorist attack, a natural catastrophe-all it takes is one event to disrupt our way of life. We could find ourselves facing myriad serious problems from massive unemployment to a food shortage to an infrastructure failure that cuts off our power or water supply. If something terrible happens, we won't be able to rely on the government or our communities. We'll have to take care of ourselves. In How to Survive the End of the World as We Know It, James Rawles, founder of SurvivalBlog.com, clearly explains everything you need to know to protect yourself and your family in the event of a disaster-from radical currency devaluation to a nuclear threat to a hurricane. Rawles shares essential tactics and techniques for surviving completely on your own, including how much food is enough, how to filter rainwater, how to protect your money, which seeds to buy for your garden, why goats are a smart choice for livestock, and how to secure your home. It's the ultimate guide to total preparedness and self-reliance in a time of need.

A tale by the creator of SurvivalBlog.com imagines a world in which a cataclysmic financial crisis prompts a total collapse of American society and forces people to fend for themselves, in a story that follows a group of protagonists who make their way to a shared secure ranch in northern Idaho, where they struggle to survive against violent looting and natural hazards. Original.

The most comprehensive source available on medium wave, shortwave, FM broadcast, and television broadcast information, this handbook continues to be the ultimate guide for the serious radio listener.

This book tells the story of Nazi international broadcasting before and during the Second World War. Using archival material, it dissects the message that Germany's overt and covert propaganda stations broadcast to their audiences, as well as the lives and motivations of the broadcasters.

The most comprehensive, authoritative work on understanding and building authentic lutes, by a world renown luthier and scholar. Historical section covers the development of the lute from the 15th through the 18th century with over 100 photographs of ancient lutes and 50 diagrams; practicum section covers the construction of the lute in minute detail with over 600 step-by-step photographs and a dozen diagrams. Includes a list of historic makers, catalog of extant historic lutes, bibliography and index, plus complete reduced images of seven lute plans.
