In an undead world, zombies aren't the greatest threat. The outbreak began in February. Nations went to war. Governments collapsed. Billions died in the chaos and anarchy that followed. Billions more were infected. They died. They came back. It is now October and out of the tens of millions who lived in southern England only ninety people remain. They sought sanctuary behind the ancient walls of the Tower of London, but it was only a temporary refuge. There is no more food to be scavenged from the ruins of the old world. Their water supply is polluted. As the days get shorter, the weather worsens, and people begin to get sick. They have been betrayed and are besieged by the living and undead alike. Over their heads hangs the threat of a last catastrophic weapon. This spectre of the old world conspiracy that brought the living dead to plague the Earth leaves them with a terrible decision. Some must be sacrificed so that amidst the horror others might find somewhere in the undead wasteland that they can call home. (80,000 words)

The undead rose. Nations collapsed. Some people survived. Three months after escaping from London, Bill discovers the true extent of the global war that followed the outbreak. Most of the world has been destroyed, but there is a safe haven in a small village on the Irish coast. When he is told of the

sanctuary awaiting them, he also discovers that the scientist who created the virus escaped from New York. In order for any of them to ever truly be safe, Bill will have to head north to confront the man, discover the truth behind the outbreak and finally choose between his old family and his new one. This is the third volume of his journal. This story of an undead Britain continues in Unsafe Haven. The outbreak in New York, and Sholto's attempt to destroy the cabal behind it are told in Here We Stand: Infected. Other books in the series: 1: London. 2: Wasteland. (Zombies vs The Living Dead) 3: Family. 4: Unsafe Haven. 5: Reunion. 6: Harvest. 7: Home. & Here We Stand 1: Infected & 2: Divided. Zombies. The outbreak began in New York. Soon it had spread to the rest of the world. People were attacked, infected, and they died. Then they came back. No one is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The British press was nationalised. Martial law, curfews and rationing were implemented. It wasn't enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. Bill Wright, a Westminster insider and an advisor to a future Prime Minister, broke his leg on the day of the outbreak. Unable to join the evacuation, he watched from his window as the streets filled with refugees. He watched as the streets emptied once more. He watched as they filled up again, this time with the undead. Then the power went out. He is trapped. He is alone. He is running out of food and water. He knows that to reach the safety of the enclaves he will have to venture out into the wasteland that once was England. On that journey he will ultimately discover the horrific truth about the outbreak, a decades old conspiracy, and his unwitting part in it. This is the first volume of his journal. (73,000 words)

The outbreak changed everything, but there are some bonds even the undead can't break. It's been six years since Pete Guinn last saw his sister, Corrie. He always hoped to see her again, but feared she was dead. When an elusive billionaire reveals Corrie is living under an assumed name in the Australian outback, Pete unquestioningly jumps at the chance of a reunion. But you can't win the lottery without buying a ticket, and billionaires don't do favours for free. Corrie is in hiding from her old employer, and from the Rosewood Cartel. Now that they've both found her, only a miracle can save the two siblings, and what happens in Manhattan can't be described as miraculous. What begins as a viral outbreak soon turns into an impossible horror. People are infected and die, only to rise up and continue transmitting the infection. Even as the army is mobilised, the virus spreads beyond the borders of the United States. Nowhere is safe from the living dead. As Australia is quarantined, the mining town of Broken Hill becomes a transit hub for the relief effort. Tourists are evacuated while civilians are conscripted, Pete and

Corrie among them. Together with a bush pilot, a flying doctor, and an outback cop, the struggle to maintain civilisation begins. Supplies run low. Looting is rampant. Laws are forgotten, especially by the cartel who haven't abandoned their search for Corrie and their quest for revenge. Set in Broken Hill and beyond as the Australian quarantine begins. As this book returns to the beginning of the outbreak, it can be considered a good entry point for readers new to the series.

A castle can be made safe from the undead, but not from the people inside the walls. It is seven months since the outbreak. In the anarchy and chaos that came with the undead, civilisation was destroyed. In the wars that followed, the planet was nearly ruined. Billions died. Only a few thousand survived. Fifty people have found refuge in the Tower of London. Zombies plague the city outside the old fortress. The wasteland beyond is filled with nothing but radioactive ruins. With nowhere left to retreat to, and in a final attempt to make the ancient castle a place where they can do more than just slowly starve, the survivors search for food in the abandoned coastal farms. They find something else. They discover that hunger, thirst, and the undead aren't the only threat they face. Betrayal and danger lurk in the shadows in this, the penultimate book in the series. It will conclude in Book 7: Home.

Emmy-Award winning host of Survivor, Jeff Probst, with Middle School: The Worst Years of My Life co-author, Chris Tebbetts, comes a brand new family adventure series! A family vacation becomes a game of survival! It was supposed to be a vacation--and a chance to get to know each other better. But when a massive storm sets in without warning, four kids are shipwrecked alone on a rocky jungle island in the middle of the South Pacific. No adults. No instructions. Nobody to rely on but themselves. Can they make it home alive? A week ago, the biggest challenge Vanessa, Buzz, Carter, and Jane had was learning to live as a new blended family. Now the four siblings must find a way to work as a team if they're going to make it off the island. They're all in this adventure together--but first they've got to learn to survive one another. \*\*\*WARNING: NOT FIT FOR HUMAN CONSUMPTION\*\*\*This book contains foul language and fouler descriptions of life as a zombie. It will offend most anyone, so proceed with caution or not at all. And be forewarned: This is not a zombie book. This is a different sort of tale. It is a story about the unfortunate, about those who did not get away. It is a human story at its rotten heart. It is the reason we can't stop obsessing about these creatures, in whom we see all too much of ourselves.

Not all people died. Not all gave up hope. The outbreak was in February. By the end of November, Earth has become a hellish wasteland ravaged by the undead. Survivors from across the Atlantic seaboard took refuge on the Welsh island of Anglesey. Beset by dangers from within, they departed to establish a new refuge in Belfast. Not all of them arrived. Six took the last plane on its last flight, but crashed in France. Expecting a sprinting battle through the ruins of Belfast, they packed light. With few weapons and barely any food, their chances of survival are slim. The chances of rescue are slimmer. There was no evacuation in France. No quarantine. No rationing. But there are zombies, and there are people who believe they, alone, are the last survivors of the old-world. So begins a frantic race against the undead, through the snow and storm ravaged ruins of Northern France.
