Our ancestors gathered around a fire in a circle, families gather around their kitchen tables in circles, and now we are gathering in circles as communities to solve problems. The practice draws on the ancient Native American tradition of a talking piece. Peacemaking Circles are used in neighborhoods to provide support for those harmed by crime and to decide sentences for those who commit crime, in schools to create positive classroom climates and resolve behavior problems, in the workplace to deal with conflict, and in social services to develop more organic support systems for people struggling to get their lives together. A title in The Little Books of Justice and Peacebuilding Series.

A collaboration between Native activists, professionals, and scholars, Re-Creating the Circle brings a new perspective to the American Indian struggle for self-determination: the returning of Indigenous peoples to sovereignty, self-sufficiency, and harmony so that they may again live well in their own communities, while partnering with their neighbors, the nation, and the world for mutual advancement. Given the complexity in realizing American Indian renewal, this project weaves the perspectives of individual contributors into a holistic analysis providing a broader understanding of political, economic, educational, social, cultural, and psychological initiatives. The authors seek to assist not only in establishing American Indian nations as full partners in American federalism and society, but also in improving the conditions of Indigenous people world wide, while illuminating the relevance of American Indian tradition for the contemporary world facing an abundance of increasing difficulties.

A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (Vanity Fair). When Mae Holland is hired to work for the Circle, the world’s most powerful internet company, she feels she’s been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users’ personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company’s modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can’t believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman’s ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

The original small-press edition of Calling the Circle has become one of the key resources for the rapidly-growing "circle" movement. This newly revised edition brings Christina Baldwin's groundbreaking work to an even broader audience ranging from women's spirituality groups to corporate development teams. 50,000 years ago, women and men gathered around campfires to decide the key issues in their lives. Today, groups everywhere are discovering a new form of this ancient ritual for communication, mutual support, teamwork, and social change. Now, in a book as consciousness-changing as Riane Eisler's The Chalice and the Blade or Peter Senge's The Fifth Discipline, Christina Baldwin offers this powerful new tool to everyone who longs for a community based on honesty, equality, and spiritual integrity. In this simple, profound practice, participants sit in a circle, pass a talking piece from person to person, and speak and listen from the heart. Christina Baldwin gives detailed instructions and suggestions for getting started, setting goals, and solving disagreements safely and respectfully. She also offers inspiring examples of circles in action: a women's spirituality group, a father and son in crisis, a PTA group that averts a school strike and a work project team that accesses a new level of creativity and caring.

"My parent needs help, but refuses to consider a nursing home." That's the dilemma facing millions of baby boomers today. How can we ensure responsible, compassionate, even uplifting care for our aging parents at home? Mindfulness is key, Ann Cason writes. Good care begins with watching and listening, with entering the elder's world and accepting it. Drawing on decades of experience in caring for the elderly, Cason helps us understand how old age feels and how we can help. Then, through exercises, care studies, and numerous examples and suggestions, Circles of Care shows how to: • Work out a plan of care • Assemble and foster a caregiving team • Create an uplifting daily routine—and vary it creatively • Plan nutrition, medical needs, finances, and outings • Improve the elder's personal care and physical environment • Ease conflicts between elders and their caregivers or families • Avoid caregiver burnout • Work with mood swings, confusion, and memory loss

When I was new to San Francisco eight years ago, I remember standing at a café window on Polk Street watching a group of women inside, huddled around a table laughing. Like the puppy dog at the pound, I looked through the glass, wishing someone would pick me to be theirs. I had a phone full of far-flung friends' phone numbers, but I didn't yet know anyone I could just sit and laugh with in a café. It hit me how very hard the friendship process is. I'm an outgoing, socially comfortable woman with a long line of good friendships behind me. And yet I stood there feeling very lonely. And insecure. And exhausted at just the idea of how far I was from that reality. I knew I couldn't just walk in there and introduce myself to them. "Hi! You look like fun women, can I join you?" I would have been met with stares of pity. No one wants to seem desperate, even if we are. We don't have platonic pick-up lines memorized. Flirting for friends seems creepy. Asking for her phone number like we're going to call her up for a Saturday night date is just plain weird. All the batting of my eyelashes wasn't going to send the right signals. And so I turned away from the scene of laughter and walked away. No, unfortunately, friendships don't just happen. We Value Belonging Friendships may not happen automatically, but what we crave about them sure seems to! We all want to belong—that need to be connected to others is an inherent desire. We live our entire lives trying to fit in, be known, attract acceptance, and experience intimacy. We desperately want to have others care about us. This book is about that hunger. And more pointedly, it is about listening to it and learning how to fulfill it.
