The "Connected Company" is a guide full of examples and research to enable companies, both large and small, to become more agile and customer focused. The book shows how we got to large companies built on hierarchical divisions, and how this organization structure hinders these same companies from responding to market disruptions and keeping up with changes in their markets in general.

Connected company. A company is connected with another company if either the same person has control of both companies (or that person and a person connected with him together have control of both companies), or if a group of two or more persons has control of each company and the group consists of the same persons (or could be regarded as consisting of the same persons if one member is replaced with another person with whom he is connected).

The basic idea underlying the book is captured in the following quote: " Connected companies learn faster - they can coevolve with partners and competitors, and they more easily adapt and respond to change. They do this by distributing control to semi-autonomous pods, supported by platforms and connected by a common purpose. "

Book Description. To keep pace with today ' s connected customers, your company must become a connected company. That means deeply engaging with workers, partners, and customers, changing how work is done, how you measure success, and how performance is rewarded. It requires a new way of thinking about your company: less like a machine to be controlled, and more like a complex, dynamic system that can learn and adapt over time.
