Finally - SOMEONE spills the dark and dirty beans about what it is really like to survive that first incredible year of motherhood. Filled with real tips from real parents, and based on their successful mommy blog - survival4moms.com, Erica Wells and Lorraine Regel answer all the questions you have been trying to get answered, AND all of the questions you didn't know you should be asking. Having a baby is easily the biggest lifestyle change you'll ever experience. It can be like entering a whole new world, without a map, guidebook or phrasebook. Erica Wells and Lorraine Regel experienced this first hand, and though they'd read their share of encyclopedic baby books, nothing compared to the support and humor they found among their 'Mommy' friends. These comrades provided a whole lot more truthful and helpful information for getting through the first year than what was in the typical baby book, and The Survival Guide for Rookie Moms shares these tips so that you won't find yourself saying "I never knew!" "I wish he had known... babies born to darker skinned parents often start life as fair skinned," said a midwife after having to diffuse the commotion in her delivery room caused by an African- American dad when confronted with his white baby." Just flip to one of the baby zone or mommy zone chapters (yes, half of this book is devoted to you, your body, and your mommy issues!) and you'll zoom in on practical tips, expert advice, and the insight and experiences of hundreds of other real moms. By helping you quickly focus in on the possible trouble zones, The Survival Guide for Rookie Moms will arm you with the real truth as you enter 'Baby World,' making navigation in this strange land a whole lot more fun!

"Bishop-Stall insists that hangovers... [are] worthy of a cure. After years of dogged research around the globe, he finds one — just in time for the holidays." —Washington Post "[An] irreverent, well-oiled memoir... Bishop-Stall packs his book with humorous and enlightening asides about alcohol." —The Wall Street Journal One intrepid reporter's quest to learn everything there is to know about hangovers, trying all of the cures he can find and explaining how (and if) they work, all so rest of us don't have to. We've all been there. One minute you're fast asleep, and in the next you're tumbling from dreams of deserts and demons, into semi-consciousness, mouth full of sand, head throbbing. You're hungover. Courageous journalist Shaughnessy Bishop-Stall has gone to the front lines of humanity's age-old fight against hangovers to settle once and for all the best way to get rid of the aftereffects of a night of indulgence (short of not drinking in the first place). Hangovers have plagued human beings for about as long as civilization has existed (and arguably longer), so there has been plenty of time for cures to be concocted. But even in 2018, little is actually known about hangovers, and less still about how to cure them. Cutting through the rumor and the myth, Hungover explores everything from polar bear swims, to saline IV drips, to the age-old hair of the dog, to let us all know which ones actually work. And along the way, Bishop-Stall regales readers with stories from humanity's long and fraught relationship with booze, and shares the advice of everyone from Kingsley Amis to a man in a pub.

Offers humorous advice to single women, with attention given to work, family, friends, and relationships.
