From the internationally best-selling author of *Purge* and *When the Doves Disappeared*, a spellbinding new novel set in present-day Helsinki, about a young woman with a fantastical secret who is trying to solve the mystery of her mother's death. When Anita Naakka jumps in front of an oncoming train, her daughter, Norma, is left alone with the secret they have spent their lives hiding: Norma has supernatural hair, sensitive to the slightest changes in her mood--and the moods of those around her--moving of its own accord, corkscrewing when danger is near. And so it is her hair that alerts her, while she talks with a strange man at her mother's funeral, that her mother may not have taken her own life. Setting out to reconstruct Anita's final months--sifting through puzzling cell phone records, bank statements, video files--Norma begins to realize that her mother knew more about her hair's powers than she let on: a sinister truth beyond Norma's imagining. As Sofi Oksanen leads us ever more deeply into Norma's world, weaving together past and present, she gives us a dark family drama that is a searing portrait of both the exploitation of women's bodies and the extremes to which people will go for the sake of beauty.

upon footage of Norma Jeane Baker, known throughout the world as Marilyn Monroe, he becomes haunted by her face, so much so that he seeks out her gravesite and begins speaking to her hologram. As oxygen bombs fall upon the former United States in a final act of destruction, 77241 escapes in a time bubble traveling back to June 1960. Once there, he seeks out Norma Jeane at a movie set. Through her, he attempts to save John F. Kennedy from his all-too-early demise hoping to alter enough of the past to change the world's future destruction. Join 77241 and Norma Jeane as they interact with a cast of historical characters, including Kennedy, Mark Twain and Abraham Lincoln, as they seek to change the course of history in Norma Jeane's Wishes in Time.

This book contributes to an understanding of the nature of mid-life transitions and crises by focusing on the unique personal meaning of the transitional experience for the individual. There is an implicit structure to the way in which such a transition is experienced by the individual, and this can be made explicit by the techniques and methods of the approach outlined and illustrated in the book. The value of making this structure explicit is that it enables us to understand and assess the nature and dimensions of the transition, whether or not it will reach crisis proportions, and to assess possible intervention strategies. Meaning in Mid-Life Transitions should be of interest to human service practitioners as well as teachers and students of human development and behavior. It evidences an integrative approach and structural framework, including a series of in-depth clinical and research studies.
